

## MONSTER PROFILE

# SELPHIRE

Selphire loves to take pictures – not of herself but of you! She particularly likes pictures that are embarrassing or can be easily changed. She then uses her lightning speed to spread your selfies across the internet so other people can laugh at you or find out your personal information.

**SNEAKINESS:** 46

# HOW TO DEFEAT THEM

## GoFISH

1

Think carefully before you post or send any pictures online:

- What could that picture tell someone about you?
- Is that picture rude, embarrassing or hurtful?

2

Set your privacy settings high to help prevent your pictures being seen by people you don't know

3

Don't post or send pictures or videos of yourself that you wouldn't be happy for the world (or your gran) to see
