Introduction

The Statement of Accounts sets out the overall financial position of the Police and Crime Commissioner for Hampshire and the Group Accounts for the year ending 31 March 2019. The accounts have been prepared using the International Financial Reporting Standards (IFRS), in accordance with the *Code of Practice on Local Authority Accounting in the United Kingdom 2018/19*. This narrative statement provides an explanation and overview of the financial performance and activities during 2018/19.

The Police and Crime Commissioner

The core functions of the Commissioner for Hampshire and the Isle of Wight are to secure the maintenance of the police force for the area and to ensure that the police force is efficient and effective. Other key functions include:

- Holding the Chief Constable to account
- Appointment / suspension / removal of the Chief Constable
- Setting the priorities for the Force and producing the Police and Crime Plan
- Attending the Police and Crime Panel
- Setting of the annual budget and Council Tax precept
- Direct engagement with the public
- Publishing an annual report stating how priorities and targets have been met, and other information as specified by the Secretary of State to enable greater public awareness of police and crime performance in the area
- Collaborating for an efficient and effective Criminal Justice System for Hampshire and the Isle of Wight with partners such as the Youth Offending Team, Crown Prosecution Service and Prison Service etc.

The Commissioner is ultimately accountable to the electorate via the ballot box. A Police and Crime Panel (PCP) is also established under the Police Reform and Social Responsibility Act and is charged with scrutinising and supporting the work of the Commissioner. The Panel, however, cannot hold the Chief Constable to account.

The PCP's core functions include:

- To review the draft Police and Crime Plan
- To publicly scrutinise the Commissioner's Annual Report
- To review and scrutinise decisions and actions of the Commissioner
- To review and have the power to veto the Commissioner's proposed Council Tax precept levels
- To review the Commissioner's Conduct – the PCP can suspend the Commissioner if he is charged with a minimum of a 2-year imprisonable offence and report to the Independent Police Complaints Commission, however they cannot remove the Commissioner
- To confirm the Chief Constable's appointment
- To appoint an acting Commissioner, if required

Narrative Statement

The Commissioner has established a joint audit committee with the Chief Constable. Its purpose is to provide independent advice on the adequacy of the corporate governance and risk management arrangements in place and the associated control environment, advising according to good governance principles and proper practices. More specifically, this includes the following terms of reference:-

- Review the corporate governance arrangements against the good governance framework and consider annual governance reports and assurances
- Review the Annual Governance Statements (AGS) prior to approval and consider whether they properly reflect the governance, risk and control environment and supporting assurances and identify any actions required for improvement
- Consider the arrangements to secure value for money and review assurances and assessments on the effectiveness of these arrangements
- Consider the framework of assurance and ensure that it adequately addresses the risks and priorities of the OPCC and the HC
- Monitor the effective development and operation of risk management, review the risk profile, and monitor progress of the PCC and the CC in addressing risk-related issues reported to them
- Consider reports on the effectiveness of internal controls and monitor the implementation of agreed actions
- Review anti-fraud arrangements (including whistleblowing procedures) and the assessment of fraud risks and potential harm from fraud and corruption and monitor the effectiveness of the counter-fraud strategy actions and resources
- Further consideration and advice in relation to Internal Audit, External Audit, Financial Reporting, Partnership Governance and Accountability Arrangements.

The Police and Crime Plan sets out the Commissioner's vision and priorities for policing and community safety across Hampshire and the Isle of Wight and is available in summary of full version on his website at www.hampshire-pcc.gov.uk. The vision of the Commissioner is to make Hampshire and the Isle of Wight safer.

In policing terms Hampshire Constabulary is the second largest non-metropolitan force in England and Wales. The combined population of the Hampshire Constabulary area is approximately 2 million. Further information on achievements and developments can also be found on the Commissioner's website and on the Chief Constable's website at www.hampshire.police.uk

Statement of Accounts

The Police Reform and Social Responsibility Act 2011 established the Police and Crime Commissioner and the Chief Constable as separate entities (known as 'corporations sole'). As separate bodies, both the Commissioner and the Chief Constable are required to appoint their own Chief Finance Officers, each with statutory responsibilities, as being the person responsible for proper financial administration under the provisions of the Act. A consequence is also that each body is required to be subject to audit under the Local Audit and Accountability Act 2014 and are thus required to prepare a set of accounts. Additionally, the Commissioner, with his ultimate control over the Chief Constable's resources, has to prepare group accounts.

The Home Office has produced a Financial Management Code of Practice (FMCP) which sets out the responsibilities of the respective Chief Finance Officers. This was updated by

the Home Office in 2018. The FMCP outlines how the two bodies should work together in managing the finances and covers such things as the Scheme of Corporate Governance which includes the Scheme of Consent, Financial Regulations and Contract Standing Orders and delegation which identify what powers and responsibilities.

The Police and Crime Commissioner's and the Group Financial Statements for 2018/19 consist of the:

- Statement of Responsibilities for the Statement of Accounts
- Movement in Reserves Statement
- Balance Sheet
- Cash Flow Statement
- Comprehensive Income and Expenditure Statement
- Notes to the Accounts
- Police Pension Fund Account
- Annual Governance Statement (Commissioner)
- Independent Auditor's Report

Relationship between Accounting Statements

The different accounting statements are linked in several important ways.

The Movement in Reserves Statement shows the movement in the year on the different reserves held by the Commissioner, analysed into 'usable' reserves (i.e. those that can be applied to fund expenditure or reduce local taxation) and other reserves.

The Cash Flow statement reconciles to the balance on the Comprehensive Income and Expenditure account for the year and the movement in Balance Sheet liquid assets and liabilities.

The Comprehensive Income and Expenditure Statement balance is reconciled in the Movement in Reserves Statement to the actual movement in the general fund cash reserve.

Changes to the Accounts

The 2018/19 Code of Practice on Local Authority Accounting introduced some changes as a result of two new International Financial Reporting Standards (IFRS). IFRS 9 relates to how financial instruments are accounted for. These are now valued, depending upon the type of instrument, at amortised cost or fair value. Changes in fair value are taken to the relevant part of the Comprehensive Income and Expenditure Statement, depending on the type of instrument. Regulations currently provide a statutory override, until 2022/23, so that any changes in fair value do not impact the general fund. IFRS 15 sets out how revenue should be recognised from contracts with customers. This has not had any material impact upon, as the policy already was to record income in the correct period as the service is provided

Significant changes in accounting policies

There have been no significant changes in accounting policies in the year.

Underlying accounting principles

Four underlying principles have been employed in order to prepare the accounts so that they demonstrate:

a) Understandability

The accounts are based on accounting concepts, treatments and terminology that assume that a reader has:

- A reasonable knowledge of the business of Local Authorities and the ways in which services are provided;
- A reasonable knowledge of accounting; and
- A willingness to study the information required with reasonable diligence.

However, every effort has been made to use plain language and where technical terms are unavoidable they have been explained in the glossary of terms.

b) Relevance

The accounts provide information about the Commissioner's, the Chief Constable's and the Group's financial performance and position that is useful for assessing the stewardship of public funds and for making economic decisions. Information is presented so that it will assist readers to understand the Group's current financial position or to make predictions about its financial trends.

The relevance of information contained in the accounts is affected by its nature and materiality (whether its misstatement or omission might reasonably be expected to influence assessments of the Group's stewardship, economic decisions or comparisons with other organisations based on financial statements) and therefore a judgement has been made about the levels of materiality to ensure that relevant issues are disclosed.

c) Reliability

The financial information within the accounts has been prepared so that it:

- Can be depended upon to represent faithfully what it either purports to represent or could reasonably be expected to represent and therefore reflects the substance of the transactions and other events that have taken place;
- Is free from bias (i.e. it is neutral);
- Is free from material error;
- Is complete within the bounds of materiality and cost; and
- Under conditions of uncertainty, it has been prudently prepared (i.e. a degree of caution has been applied in exercising judgement and making the necessary estimates).

d) Comparability

Comparability (i.e. the ability to compare the Group's performance between financial years and with other organisations), is an important mechanism for ensuring the usefulness of financial information (and is an essential element of the best value accounting framework).

The application of the terms, accounting policies and requirements of the Chartered Institute of Public Finance and Accountancy Code of Practice on Local Authority Accounting in England (2018) Statement of Recommended Practice is the way in which the Commissioner and the Chief Constable have ensured consistency of financial information in the financial statements leading to comparability.

Review of the year

Financial Overview (including economic climate)

In February 2018, the Commissioner approved funding for a net revenue budget for 2018/19 for the Group of £315m, an increase of £9m on the previous year. This increase was funded through an increase in the Band D precept of £12 (raising £9.7m) offset by a reduction in the collection fund surplus of £0.7m. There was no increase in central government grant funding in 2018/19.

Borrowing

The Prudential Code allows the Commissioner to borrow money as long as it is prudent, affordable and sustainable. In accordance with his borrowing strategy for 2018/19 the Commissioner did not take out any new loans and financed capital expenditure incurred during the year through a use of capital grant, capital receipts, earmarked reserves and internal borrowing through the use of cash balances. Some of the existing borrowing at the start of the financial year was repaid using resources set aside for such purposes.

As a result, at the year end the Commissioner had a total of £31.1m of outstanding PWLB loans at actual interest rates ranging between 2.65% and 6.0% and a weighted average overall rate of 4.23% (all debt outstanding is legacy debt which pre-dates the establishment of PCCs). Of the total outstanding debt, £0.7m of principal is repayable in 2019/20 and is classified as a current liability in the accounts, leaving £30.4m as long term borrowing shown on the balance sheet.

Investment

The Commissioner has an investment portfolio consisting of reserves and short-term cash flows (including on-call cash investments). We continue to invest according to a low risk, high quality lending list as outlined in the Investment Strategy for 2018/19. Cash balances reached an average of £63.728m during the year and this generated interest and dividends of £0.653 m, which was an increase over the £0.647m achieved in 17/18, with the average yield being maintained at around 1.06%. At 31 March 2019 the investment holding stood at £31.4m.

In August 2018, the Bank of England increased the base rate of interest to 0.75%, having previously held this at 0.5% since November 2017. Although an increase, the rate remains historically low. Low base rates benefit the Commissioner in that he is able to borrow (if required) to finance the capital programme at very low rates. However, the downside means that the rates of return on interest received on surplus cash balances, which are credited to the income and expenditure account, and which helps to reduce the burden on the council tax payer, are very low.

Pensions

The Commissioner's net pension liability is included in the balance sheet in accordance with accounting standards including an estimate of the impact of the McCloud judgement that concluded the transitional provisions introduced to the reformed judges and firefighters pension schemes in 2015 gave rise to unlawful age discrimination. The Government's application to appeal the decision was denied by the Supreme Court on 27 June 2019. Consequently, the Government has stated its intention to engage fully with the Employment Tribunal to agree how the discrimination will be remedied for all the main public service pension schemes. The actual remedy may differ between schemes and it is uncertain to predict. However, the Government Actuary's Department (GAD) have calculated a worst-case scenario and the Commissioner's actuary has used the same assumptions to calculate the impact for these accounts.

Overall, the net pension liability has increased by £218m from £3,576m at 31 March 2018 to £3,794m at 31 March 2019. The Commissioner's assessed share of the value of the plan assets of the Local Government Superannuation scheme showed an increase of £40m while the assessed present value of the Commissioner's liabilities on all pension schemes increased by £258m.

The large negative IAS19 pension reserve is mainly due to the police pension scheme being an unfunded scheme i.e. with no fund assets to offset future liabilities when existing police officers have all retired. The difference between pension fund outgoings and incomings is met by top-up grant from the Home Office. Therefore, the statutory arrangements for funding the liability mean that the Commissioner's and the Group's financial position remains sound.

Reserves

The requirement for reserves is covered in sections 32 and 43 of the Local Government Finance Act 1992, which require billing and precepting authorities in England and Wales to have regard to the level of reserves needed for meeting estimated future expenditure when calculating the budget requirement. Earmarked reserves remain legally part of the general fund but are accounted for separately.

As of 31 March 2019 the general reserve stood at £10.790m before any additional transfers to earmarked reserves are approved by the Commissioner. This general reserve balance represents a decrease of £0.108m when compared to 31 March 2018. The Transformation Reserve balance stood at £23.857m at 31 March 2019, which will assist with funding the ongoing cost of change.

The Commissioner's Reserve is held to support the Commissioner's priorities and support delivery of the Police and Crime Plan. The reserve stood at £0.624m at 31 March 2019.

The medium-term financial strategy approved by the Commissioner as part of the 2019/20 budget setting process shows how these reserves will be used to support the change programme over the medium-term. However, it is important to note that of these usable reserves, £8.737m belongs to the ACRO Criminal Records Office and associated activities, partly as a surety (£4.346m) but mainly to support its on-going activity (£4.391m).

Narrative Statement

The notes to the accounts provide further details of the year end balances and the purpose of each reserve.

Material Assets Acquired or Liabilities Incurred

There were no material assets acquired or liabilities incurred during the year.

Unusual Charges or Credits within the accounts

There were no unusual charges or credits in the accounting period.

Significant Provisions or Contingencies

As a result of the adoption of International Financial Reporting Standards (IFRS), there is a requirement to accrue for any annual leave, flexitime and time off in lieu which had been earned but not taken at 31 March each year. The amount accrued at 31 March 2019 was £4.197m (£4.108m as at 31 March 2018).

Events after the Reporting Period

On 27 June 2019, the Supreme Court denied the Government's request to appeal the McCloud/Sargeant judgment that the transitional provisions introduced to the reformed judges and firefighters pension schemes in 2015 gave rise to unlawful age discrimination. The Government has stated its intention to engage fully with the Employment Tribunal to agree how the discrimination will be remedied for all the main public service pension schemes. The assumptions of the Government Actuary Department (GAD), have been used to update the past service cost in the Comprehensive Income and Expenditure Statement and the net pension liability on the balance sheet. This is offset by the same adjustment in the Pension Reserve.

Collaborative working

The Commissioner and the Constabulary continue to work with police bodies, including the National Police Air Service, Police ICT Company, the South East Region Organised Crime Unit and Counter Terrorism Policing South East. There is increasing national co-ordination through the Policing Vision 2025 and Police Transformation Fund. A South East Region Integrated Processes (SERIP) team has been created to co-ordinate collaboration within the region.

Hampshire Constabulary and Thames Valley Police have also created a bilateral partnership. The Commissioner has entered into a collaboration agreement with Thames Valley in order to create a joint Information & Communications Technology (ICT) and Information Management department, with a shared Assistant Chief Officer having direct responsibility for the provision of ICT and information management assurance for both Forces. A Joint Operations Unit has also been created using another collaboration agreement with Thames Valley Police allowing strategic operations, roads policing, firearms and dogs units, to be delivered in collaboration between the two forces across departmental and geographical boundaries (although not a collaborated function, the Hampshire

Narrative Statement

Constabulary Marine Unit is also managed through the Joint Operations Unit). A new collaboration agreement was signed in 2016/17 for Contact Management with a new contact management solution due to be rolled out across Thames Valley and Hampshire in 2019/20.

The Policing and Crime Act 2017 placed a statutory obligation on emergency services to collaborate and enables Police and Crime Commissioners (PCCs) to take on the responsibility for fire and rescue services in their area, where there is a strong local case to do so.

The Constabulary has an active programme of collaboration with Hampshire Fire and Rescue Services. This already includes the sharing of buildings, including a shared headquarters.

In line with the provisions within the Police and Crime Act 2011, the PCC undertook an options appraisal during 2017/18 to review the governance arrangements for Fire. The outcome was that the PCC has determined not to submit a business case to change the current governance arrangements at the present time.

The Constabulary entered into a joint working arrangement in 2014/15 with Hampshire County Council and Hampshire Fire and Rescue Service for the provision of professional support services including finance, human resources, facilities management and procurement across the three organisations. Internal audit and pensions services have subsequently been added. The services are hosted but not controlled by Hampshire County Council as they are delivered with joint direction, governance, control and senior management with each organisation accounting for its share of the costs.

Hampshire Constabulary is collaborating with Hampshire County Council on a joint laboratory facility and with the University of Portsmouth on a shared Digital Forensics centre of excellence.

The ACRO Criminal Records Office and its associated national units are hosted by Hampshire. Collaborative agreements in respect of ACRO are in place with all 43 forces in England and Wales as at 31 March 2019. The Commissioner's total useable reserves include within Other Earmarked Revenue Reserves £8.738m of reserves which are held on behalf of ACRO. These reserves are ringfenced to ACRO and are not available to the Commissioner to support delivery of his Police and Crime Plan nor can they be used by the Commissioner to support Policing within Hampshire.

Performance

The financial performance of the group over the year is set out in this narrative statement and more detail is shown in the accounts which follow. Key risks to the Commissioner and the Chief Constable (in separate statements) are available on the website. Strategic risk registers are reported to each meeting of the Joint Audit Committee.

During 2019 Her Majesty's Inspector of Constabularies and Fire and Rescue Services (HMICFRS) undertook their fifth Police Efficiency Effectiveness and Legitimacy (PEEL) assessment of the extent to which Hampshire Constabulary keeps people safe and reduces crime. The full report is awaiting publication so at this point the 2017 report remains the current assessment. The outcome in 2017 was that the HMICFRS graded the Constabulary

'good' in effectiveness, efficiency and legitimacy. The full report can be read via the following link - <https://www.justiceinspectorates.gov.uk/hmicfrs/peel-assessments/peel-2017/hampshire/>

The following observations were made by Her Majesty's Inspectorate in 2017:

- "I am very pleased with the performance of Hampshire Constabulary in keeping people safe and reducing crime, particularly for the action it has taken to address the areas for improvement identified in previous inspections";
- "The force investigates serious crime well, and is good at protecting the public from dangerous offenders. Its efforts to improve the response to victims of domestic abuse are of particular note. However, investigations into some less serious crimes are not always satisfactory and there is a need for more consistent supervision and more victim updates";
- "It has a good understanding of demand for its services, and processes to predict future demand. It has realistic financial plans that include investing in infrastructure, such as IT and estate, which will help it to achieve savings in the long term and will improve its service to the public"
- "The chief constable has created an environment of fairness and respect, benefiting both the people who the force serves, and its own officers and staff. Overall, I commend Hampshire Constabulary for the improvements it has made to its performance this year"

Comparison of accounts with the revenue outturn

The Comprehensive Income and Expenditure Statement is presented in a format that complies with the Code of Practice and shows the net cost of providing services in accordance with generally accepted accounting practices. These costs include charges for the Commissioner's pension scheme (in accordance with International Accounting Standard 19 – IAS19) as well as depreciation and losses on disposal or impairment of property, plant and equipment assets, and other adjustments.

The management accounts which are reported to the Commissioner throughout the year are based on the agreed revenue budget, which excludes the accounting adjustments required by the Code of Practice in preparing the year end financial statements. The management accounts provide the in-year information to allow the Commissioner to manage his business, and also enable the Commissioner to take account of in-year performance in reviewing his forward Medium Term Financial Strategy and in informing the setting of the precept for the following year. The management accounts provide for the cost of financing capital expenditure, revenue contributions and actual in year employer's contributions to the pension fund instead of the accounting charges for the pension scheme and depreciation included within the financial statements.

As the accounts are prepared in accordance with the requirement of IAS 19, the cost of retirement benefits are recognised within the Comprehensive Income and Expenditure Statement and the liability relating to pensions schemes is included within the long term liabilities on the Balance Sheet. These liabilities totalled £3,794m at 31 March 2019 which has resulted in an overall negative balance of £3,558m. However finance is only required for the police pensions when the amounts are actually paid.

Revenue Expenditure

In 2018/19, the reported outturn position, subject to audit, was net expenditure of £313.1m on policing services for the people of Hampshire and the Isle of Wight, for the costs of the Office of the Police and Crime Commissioner and for commissioning services in accordance with the Police and Crime Plan objectives.

The table below contains an analysis of the income and expenditure incurred by the Commissioner and the Group in the format of the management accounting figures as prepared for scrutiny by the PCC and senior management in the Constabulary throughout the year and updated with the final outturn figures.

The summary below shows net contributions from reserves of £2.032m. This is before adding the general underspend and any transfers to reserves for holding account balances. Taking into account all reserve movements in the course of the year and at the year-end, including usable reserves which were used in the financing of the capital programme, total usable reserves had decreased by £8.374m at 31 March 2019.

Outturn 2018/19	Budget £'000	Actuals £'000	Variance £'000
Funding	315,255	(315,380)	(125)
Expenditure owned by the PCC			
Office of the PCC	2,520	2,420	(100)
Commissioning	2,168	2,148	(20)
Estates	14,682	14,010	(672)
Capital Financing	2,505	2,530	25
Interest on balances	(500)	(653)	(153)
Contributions to/(from) reserves	(2,032)	(2,032)	0
Net expenditure owned by the PCC	19,343	18,423	(920)
Police Service			
Employee related	248,904	247,347	(1,557)
Transport	6,392	6,038	(354)
Supplies and services	81,605	83,822	2,217
Premises	893	936	43
Income	(41,881)	(43,468)	(1,586)
Net Police Service	295,913	294,675	(1,237)
Net total expenditure	315,255	313,098	(2,157)
Net total funding/expenditure	0	(2,282)	(2,282)

Narrative Statement

The following table reconciles the actual expenditure in the year to the accounting statements.

Reconciliation to the Comprehensive Income and Expenditure Statement

The table below reconciles the management accounts, as per the previous table, with the financial accounts presented herein.

	Actuals as per outturn report £'000	Adjustments between accounting and funding basis £'000	Adjustments for other items to match CIES presentation £'000	Net cost of services in the CIES £'000
Expenditure owned by the PCC				
Office of the PCC	2,420	-	-	2,420
Commissioning	2,148	-	-	2,148
Estates	14,010	18,117	-	32,127
Capital Financing	2,530	-	(2,530)	-
Interest on balances	(653)	-	653	-
Contributions to/from reserves	(2,032)	-	2,032	-
Net expenditure owned by the PCC	18,423	18,117	155	36,695
Police Service				
Employee related	247,347	25,819	-	273,166
Transport	6,038	-	-	6,038
Supplies and Services	83,822	-	(2,550)	81,272
Premises	936	-	-	936
Income	(43,468)	-	19	(43,449)
Net Police Service	294,675	25,819	(2,531)	317,963
Other items not allocated to services	-	96,690	2,660	99,350
Net cost of Policing Services	313,098	140,626	284	454,009
Other (income)/expenditure	-	73,272	(305,009)	(231,737)
(Surplus)/deficit on the provision of services	313,098	213,898	(304,725)	222,272

This table shows that there was a deficit of £222.3m on the provision of services for 2018/19 in the statutory financial statements for the group as a whole (£128m deficit in 2017/18). This reflects the different basis on which the Statement of Accounts is prepared. Thus, the difference from the net position reported in the summary compared to the figures reported to the Commissioner is due to a number of items which are not included in the management accounting reports. The principal differences between the statutory and the management accounts (i.e. the revenue budget) in 2018/19 are in respect of the depreciation and impairment of assets, the actuarially-assessed charges for police and staff pensions which are earned in the year, an adjustment in respect of capital grants received from the Government and the balances on the collection fund accounts held by the billing authorities.

Capital Expenditure

Capital expenditure is incurred on the acquisition and enhancement of the Commissioner's assets which have a life of more than one year. The PCC approved a Capital Programme of £43.1m for 2018/19 in February 2018, including costs for the next phase of the Estates Change Programme (ECP).

The capital programme was updated and revised in the year to reflect commitments carried forward, slippage from 2017/18 and a rephasing of commitments generally. The programme was revised to £39.2m in the Budget 2019/20 report. Total expenditure in 2018/19 was £33.5m. Of this, £31.2m was spent on buildings and £2.3m on vehicles. The nature of expenditure on technology and operational equipment met the accounting definition of revenue expenditure. The actual expenditure was funded mainly from internal borrowing ahead of capital receipts expected in future years for sales of assets.

A summary of expenditure against the approved capital programme, and the financing thereof, is set out below:

2017/18 £m		2018/19 £m
	Expenditure:	
9.0	Land & Buildings	31.2
3.3	Vehicles (Including Boats) and Plant	2.3
3.9	IT & Operational Equipment	0.0
16.2	Total	33.5
	Funded by:	
(1.2)	Government Grant	1.2
	Capital Contributions	10.2
(2.1)	Capital Receipts	7.1
(4.0)	Donated Assets	
(8.9)	Revenue Contributions	5.8
	Borrowing (incl. Internal)	9.2
(16.2)	Total	33.5

Future Prospects

Budget 2019/20, Capital Programme and Medium Term Financial Strategy

The budget for 2019/20, Capital Programme and Medium Term Financial Strategy were approved by the Police and Crime Commissioner in February 2019 and published on the website.

The budget for 2019/20 includes a precept rise of £24 on a Band D property in line with the referendum limit set by Government and taking into account the supportive views of the public consultation and the views of the Police and Crime Panel. A fully balanced budget of

Narrative Statement

£337m was set for 2019/20. However, the Medium Term Financial Strategy shows that further savings will be necessary in future years to balance the budget beyond 2019/20

The capital programme includes £36.8m of planned expenditure. Of this amount £25.7m relates to new estate, £8.8m relates to technology and £2.4m relates to replacement vehicles. This is funded by £17.9m of in-year capital receipts, £1.2m from capital grant, £5.7m from revenue contributions, and £4.4m from reserves with the remainder to be funded from borrowing.

Treasury Management Strategy

The Treasury Management Strategy and Investment Strategy is approved annually by the Police and Crime Commissioner and published on the website. The document contains a more detailed explanation of the economic outlook and the agreed prudential indicators. The authorised borrowing limit was £85.4m for 2018/19 and is £93.1m for 2019/20. Debt (£31m) did not exceed the Capital Financing Requirement of £58.2m at 31 March 2019.

Further information

Further information on these accounts is available from the Chief Finance Officer, Police and Crime Commissioner for Hampshire, c/o Hampshire County Council, The Castle, Winchester, SO23 8UB.

Telephone: (01962) 847533, e-mail: budget@hants.gov.uk

The Police and Crime Commissioner's Responsibilities

The Police and Crime Commissioner is required to:

- Make arrangements for the proper administration of its financial affairs and to secure that one of its officers has the responsibility for the administration of those affairs. In this organisation, that officer is the Chief Finance Officer;
- Manage the organisation's affairs to secure economic, efficient, and effective use of resources and safeguard its assets;
- Approve the Statement of Accounts.

The Chief Finance Officer's Responsibilities

The Chief Finance Officer is responsible for the preparation of the Commissioner's Statement of Accounts in accordance with proper practices as set out in the CIPFA/LASAAC *Code of Practice on Local Authority Accounting in the United Kingdom (the Code)*.

In preparing this Statement of Accounts, the Chief Finance Officer has:

- selected suitable accounting policies and then applied them consistently;
- made judgements and estimates that were reasonable and prudent;
- complied with the Code of Practice on Local Authority Accounting;
- kept proper accounting records which were up-to-date; and
- taken reasonable steps for the prevention and detection of fraud and other irregularities.

Certification of Accounts

The Chief Finance Officer's Statement

I certify that the Statement of Accounts for 2018/19 give a true and fair view of the financial position of the Commissioner and the group at 31 March 2019 and its income and expenditure for the year then ended

Signed: Andy Lowe

Date: 23 July 2019

Approval of the Accounts by the Police and Crime Commissioner

In accordance with the Accounts and Audit Regulations 2015, I certify that the Statement of Accounts was approved by me on 23 July 2019

Signed: Michael Lane

Date: 23 July 2019

Movement in Reserves Statement - Group

This statement shows the movement in the year on the different reserves held by the Commissioner and Group, analysed into 'usable reserves' (i.e. those that can be applied to fund expenditure or reduce local taxation) and other reserves. The Surplus or (Deficit) on the Provision of Services line shows the true economic cost of providing the Commissioner's and Group's services, more details of which are shown in the Comprehensive Income and Expenditure Statement. This is different from the statutory amounts required to be charged to the General Fund Balance for council tax (precept) setting. The Net Increase/Decrease before Transfers to Earmarked Reserves line shows the statutory General Fund Balance before any discretionary transfers to or from earmarked reserves undertaken by the Commissioner and Group.

Balance Sheet – Group

The Balance Sheet shows the value as at the Balance Sheet date of the assets and liabilities recognised by the Commissioner and Group.

The net assets of the Group (assets less liabilities) are matched by the reserves held. Reserves are in two categories. The first category is usable reserves, i.e. those reserves that the Group may use to provide services, subject to the need to maintain a prudent level of reserves and any statutory limitations on their use. The second category is those that the Group is not able to use to provide services. This category of reserves includes reserves that hold unrealised gains and losses (for example the Revaluation Reserve), where amounts would only become available to provide services if the assets are sold; and reserves that hold timing differences shown in the Movement in Reserves Statement line 'Adjustments between accounting basis and funding basis under regulations'.

A separate statement follows after the Group Balance Sheet to show the Commissioner's Balance Sheet.

Cash Flow Statement - Group

The Cash Flow Statement shows the changes in cash and cash equivalents of the Commissioner during the reporting period.

The statement shows how the Group generates and uses cash and cash equivalents by classifying cash flows as operating, investing and financing activities. The amount of net cash flows arising from operating activities is a key indicator of the extent to which the operations of the Group are funded by way of taxation and grant income or from the recipients of services provided by the Group. Investing activities represent the extent to which cash outflows have been made for resources which are intended to contribute to the Group's future service delivery. Cash flows arising from financing activities are useful in predicting claims on future cash flows by providers of capital (i.e. borrowing) to the Group.

Comprehensive Income and Expenditure Statement - Group

This statement shows the accounting cost in the year of providing services in accordance with generally accepted accounting practices, rather than the amount to be funded from taxation. Police and Crime Commissioners raise taxation to cover expenditure in accordance with regulations; this may be different from the accounting cost. The taxation position is shown in the Movement in Reserves Statement.

1 Expenditure and Funding Analysis

The Expenditure and Funding Analysis (EFA) shows how annual expenditure is used and funded from resources (government grants, council tax precept and business rates) in comparison with those resources consumed or earned in accordance with generally accepted accounting practices as presented in the Comprehensive Income and Expenditure Statement. The EFA also shows how this expenditure is allocated for decision making purposes between services.

3a Revaluation Reserve

The Revaluation Reserve records the accumulated gains on assets arising from increases in the value of its Property, Plant and Equipment Assets. The balance is reduced when assets with accumulated gains are:-

- Revalued downwards or impaired and the gains are lost;
- Used in the provision of services and the gains are consumed through depreciation, or
- Disposed of and the gains are realised

The reserve contains only revaluation gains accumulated since 1 April 2007, the date that the reserve was created. Accumulated gains arising before that date are consolidated into the balance on the Capital Adjustment Account.

2017/18 £'000		2018/19 £'000
(56,657)	Balance at start of year	(61,329)
(6,358)	Revaluations during year	(2,630)
428	Disposal of revalued assets	3,116
1,258	Depreciation of revaluations	1,299
(61,329)	Balance at end of year	(59,544)

3b Capital Adjustment Account

The Capital Adjustment Account absorbs the timing differences arising from the different arrangement for accounting for the consumption of non-current assets and for financing the acquisition, construction or enhancement of those assets under statutory provisions. The account is debited with the cost of acquisition, construction or enhancement as depreciation, impairment losses and amortisations are charged to the Comprehensive Income and Expenditure Statement (with reconciling posts from the Revaluation Reserve to convert fair value figures to a historical cost basis). The account is credited with the amounts set aside by the Commissioner as finance for the costs of acquisition, construction and enhancement.

The account contains revaluation gains accumulated on Property, Plant and Equipment before 1 April 2007, the date the Revaluation Reserve was created to hold such gains.

Note 4 provides details of the source of all the transactions posted to the account, apart from those involving the Revaluation Reserve.

Notes to the core financial statements

2017/18 £'000		2018/19 £'000	2018/19 £'000
(109,511)	Balance at 1 April		(106,413)
	Reversal of items relating to capital expenditure debited or credited to the Comprehensive Income and Expenditure Statement:

(1,159)	• Capital grants and contributions credited to the Comprehensive Income and Expenditure Statement that have been applied to capital financing	(11,372)	
(1,190)	• Statutory provision for the financing of capital investment charged against the General Fund balance	(1,190)	
0	• Voluntary provision for the financing of capital investment charged against the General Fund balance	-	
(8,484)	Sub-Total		(25,471)
100	Write-down of capital debtors		60
(106,413)	Balance at 31 March		(110,813)

3c Pensions Reserve

The Pensions Reserve absorbs the timing differences arising from the different arrangements for accounting for post-employment benefits and for funding benefits in accordance with statutory provisions. The Chief Constable accounts for post-employee benefits in the Comprehensive Income and Expenditure Statement as the benefits are earned by employees accruing years of service, updating the liabilities recognised to reflect inflation, changing assumptions and investments returns on any resources set aside to meet the costs. However, statutory arrangements require benefits to be financed as the Chief Constable makes employer's contributions to pension funds or eventually pays any pensions for which it is directly responsible. The debit balance on the Pensions Reserve therefore shows a substantial shortfall in the resources the Chief Constable has set aside to meet the benefits earned by past and current employees. The statutory arrangements will ensure that funding will have been set aside by the time the benefits come to be paid.

2017/18 £'000		2018/19 £'000
3,432,107	Balance at start of year	3,576,427
31,190	Actuarial losses/(gains) on pensions assets and liabilities	3,400
157,590	Reversal of items relating to retirement benefits debited or credited to the Surplus or Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement	258,303
(44,460)	Employer's pension contributions and direct payments to pensioners payable in the year	(44,300)
3,576,427	Balance at end of year	3,793,830

3d Accumulated Absences Account

The Accumulated Absences Account absorbs the differences that would otherwise arise on the General Fund Balance from accruing for compensated absences earned but not taken in the year (e.g. annual leave entitlement carried forward at 31 March). Statutory arrangements require that the impact on the General Fund Balance is neutralised by transfers to or from the account.

3e Collection Fund Adjustment Account

The Collection Fund Adjustment Account manages the differences arising from the recognition of precept income in the Comprehensive Income and Expenditure Statement as it falls due from council tax payers compared with the statutory arrangements for paying across amounts to the General Fund from the Billing Authorities' Collection Funds.

3f Financial Instrument Adjustment Account

The change in fair value of strategic pooled investment funds debited or credited to the provision of services are reversed out of the General Fund balance to this adjustment account in the Movement in Reserves Statement.

4 Usable Reserves

This note identifies the movement on the General Fund Balance, earmarked general fund (revenue) reserves, other revenue reserves and capital reserves. These are the total of the Usable Reserves shown on the Balance Sheet.

Total Usable Reserves	(85,651)	9,727	(75,924)	8,374	(67,550)	

Earmarked revenue reserves are held by the Commissioner for the following purposes:

- a. The General Fund Balance is the surplus of revenue income over expenditure. It is the main reserve held to manage unidentified and unforeseen risk;
- b. The Carry Forward Reserve is for approved budget carry forwards where expenditure has been committed but not yet spent;
- c. The ESMCP Reserve holds funds set aside for the delivery of the Emergency Services Mobile Communication Programme;
- d. The Revenue Grants Unapplied reserve holds grants for which there are no outstanding conditions but where the expenditure has not been incurred at year end;
- e. The Netley Business Plan holds any surplus generated from the use of the Netley site for functions such as weddings and is ring-fenced for subsequent reinvestment in the site;
- f. The Insurance Reserve holds funds available to pay for claims that are not covered by the insurance contract;
- g. The Commissioner's Reserve holds amounts that are used specifically to support the Commissioner's priorities and support delivery of the Police and Crime Plan;
- h. The Equipment Reserve holds funds available to offset the impact of large-scale equipment replacement such as the need to replace body armour when the warranty for body armour expires;
- i. The Forfeited Monies Reserve holds any surplus generated from confiscated money and is ring-fenced for activities relating to the prevention or detection of drug-related crime;
- j. The Laboratory Reserve holds funds available to pay for renewal of equipment as part of a joint scheme with Hampshire County Council;
- k. The Performance Reserve holds funds used to pay for specific targeted medium-term operations such as Cyber Crime;
- l. The Property Act Reserve holds any surplus from the sale of confiscated property and is ring-fenced for purchases relating to property and evidence storage;
- m. The Safer Roads Reserve holds any surplus from safer roads initiatives and will be used to further improve road safety;
- n. The Transformation Reserve was specifically set up to recognise the significant investment required to deliver transformational change, support the investment requirements linked to technology development and digital initiatives, and to provide a buffer to help manage the budget in the medium term;
- o. The ACRO surety is a sum held to meet any liabilities if the ACRO service ceases or is transferred out of the Commissioner's stewardship at short notice;
- p. The AVCIS surety is a sum held to meet any liabilities if the ACPO Vehicle Crime Intelligence Service ceases or is transferred out of the Commissioner's stewardship at short notice;
- q. The ACRO General Reserve is the surplus of income over expenditure held on behalf of the Criminal Records Office to supplement ACRO income in future years.
- r. The Capital (Revenue Contributions) Reserve holds funds that have been set aside from within the annual revenue budget to pay for capital schemes. This reserve will collect funds on a temporary basis as the funds will usually then be paid out in the next one or two years to cover the cost of a capital scheme.

5 Other operating income/expenditure

2017/18 £'000	2018/19 £'000
2,615 Levies to National Police Services	2,533

- Pooled investments (gain) or loss	(92)
- Expected credit losses	4
- Change in expected loss allowance for receivables	(70)
674	492

7 Government Grants and other contributions – Group and Commissioner

Government grants and third party contributions are recognised as income at the date that the Commissioner satisfies the conditions of entitlement to the grant or contribution.

Grants and contributions which have outstanding conditions are carried in the Balance Sheet as creditors (receipts in advance). When conditions are satisfied, or where there are no conditions attached to the grant or contribution and there is reasonable assurance that the monies will be received and that the expenditure for which the grant has been given has been or will be incurred, the income is credited to the Comprehensive Income and Expenditure Statement as follows:

- To the relevant service for revenue grants and contributions and capital grants used to fund revenue expenditure funded by capital under statute
- To the Taxation and Non-Specific Grant Income section for non-ring-fenced revenue grants and contributions and all other capital grants and contributions.

Capital grants credited to the Comprehensive Income and Expenditure Statement, are reversed out of the General Fund in the Movement in Reserves Statement. Capital grants applied in the year are posted to the Capital Adjustment Account. Where the grant has yet to be used to finance capital expenditure, it is transferred to the Capital Grants and Contributions Unapplied Reserve. Amounts in the Capital Grants and Contributions Unapplied Reserve that are subsequently applied in future years will be transferred to the Capital Adjustment Account once they have been applied to fund capital expenditure.

Where revenue grants have been credited to the Comprehensive Income and Expenditure Statement but are yet to be used, they are transferred to an earmarked reserve in the Movement in Reserves Statement. Once used in subsequent years, they are transferred to the General Fund to fund the revenue expenditure.

Most of the taxation and non-specific grant income is credited to the CIES of the Commissioner, and the majority of specific grants and contributions are recorded in the Chief Constable's CIES. The table shows the analysis across the group:-

Notes to the core financial statements

2017/18 £'000		2018/19 £'000

8 Officer and Staff Remuneration

Employee Benefits

The Chief Constable employs the majority of staff who previously were under the employment of the Commissioner. As a result, these accounts include all of the related IAS19 Employee benefits adjustments for those employees in the Local Government Pension Scheme (LGPS) and the Police Pension Schemes. Whilst a small number of staff work directly for the Commissioner on delivering his activities, on the grounds that any proportionate share of the IAS19 entries would not be material to the accounts, all of the LGPS IAS19 adjustments are contained in the Chief Constable's accounts.

Benefits Payable During Employment

Short-term employee benefits are those due to be settled within 12 months of the year-end. They include such benefits as salaries, paid annual leave and flexitime for current employees and are recognised as an expense for services in the year in which employees render service to the Chief Constable. An accrual is made for the cost of holiday entitlements (or any form of leave, e.g. time off in lieu) earned by employees but not taken before the year-end which employees can carry forward into the next financial year. The accrual is made at the salary rates applicable in the following accounting year, being the period in which the employee takes the benefit. The accrual is charged to Surplus or Deficit on the Provision of Services, but then reversed out through the Movement in Reserves Statement so that holiday benefits are charged to revenue in the financial year in which the holiday absence occurs.

All Remuneration over £50,000 in bandings of £5,000 - Group

The Accounts and Audit Regulations 2015 require the Commissioner to report on the number of employees who received remuneration totalling more than £50,000 in the year, grouped in bandings of £5,000.

Employee costs - i.e. total remuneration - include salary and taxable allowances paid to officers and staff. It does not include employer pension contributions, nor does it show remuneration net of employees' pension contributions. Where appropriate, compensation for loss of employment is also included.

The 2015 regulations define senior police officers for these purposes as being those with the rank of superintendent or above. The numbers also include people who are seconded to national roles but whose costs are reimbursed.

Remuneration for relevant police officers and senior employees

The Accounts and Audit Regulations 2015 consolidated regulations for the disclosure of the total remuneration package of those charged with the stewardship of the organisation, being senior employees or relevant police officers of the Commissioner. In Hampshire, the relevant police officer is the Chief Constable, who should be identified by name as well as post, regardless of their salary. However, the definition of senior employees for non-police officers is wider and covers those responsible for the strategic management of the organisation. Given the nature of the services provided by the Commissioner and the make-up of its strategic leadership team, the disclosure below includes all chief officers. Only relevant police officers (regardless of salary) and senior employees with a salary greater than £150,000 are named.

The table below provides the relevant disclosure for 2018/19 and comparative information for 2017/18 is provided in the second table. Where there have been changes in personnel during the current and prior year the part year remuneration is shown on an individual basis over more than one line. This will mean that certain posts are not comparable. The tables show the distinction between the Office of the PCC and those included in the operating cost statement for the Chief Constable, although in reality all officers and staff are paid by the Commissioner.

Note 1: The Treasurer is the statutory Chief Financial Officer. This is a part-time role and the Treasurer's remuneration details are disclosed by Hampshire County Council. A recharge is made to the PCC from the County Council in respect of the time and cost of the statutory role carried out by the Treasurer. This role was performed by two employee's in 2017-18. The total charge for both employee's was £54,554 (This figure include all Employers Oncosts)

Note 2: The Chief Finance Officer for Hampshire Constabulary is employed by Hampshire County Council as part of the shared services arrangement. The Officer providing this function is included within the remuneration details disclosed by Hampshire County Council. A recharge is made to the Constabulary from the County Council in respect of the cost of the Chief Finance Officer. This charge was £107,469 (This figure includes all Employer Oncosts).

9 Termination Benefits

Termination benefits are amounts payable as a result of a decision by the Chief Constable to terminate an employee's employment before the normal retirement date or an employee's decision to accept voluntary redundancy and are charged on an accruals basis to the appropriate service in the Comprehensive Income and Expenditure Statement at the earlier of when the authority can no longer withdraw the offer of those benefits or when the authority recognises costs for a restructuring.

Where termination benefits involve the enhancement of pensions, statutory provisions require the General Fund balance to be charged with the amount payable by the Chief Constable to the pension fund or pensioner in the year, not the amount calculated according to the relevant accounting standards. In the Movement in Reserves Statement, appropriations are required to and from the Pensions Reserve to remove the notional debits and credits for pension enhancement termination benefits and replace them with debits for the cash paid to the pension fund and pensioners and any such amounts payable but unpaid at the year-end.

Exit Packages in Bands of £20,000 – Group

Exit Package cost band (including special payments)	Number of compulsory redundancies		Number of other departures agreed		Total number of exit packages by cost band		Total cost of exit packages in each band

£80,001 - £100,000	-	-	-	-	-	-	-	-
£100,001 - £150,000	-	-	-	-	-	-	-	-
Totals	-	-	5	21	5	21	96	186

In addition to the payments made to staff leaving the organisation, the Chief Constable also made payments to the Local Government Superannuation Scheme which it bears as the employer for the early retirement of eligible staff who are made redundant. Charges to the Comprehensive Income and Expenditure Statement to cover the actual or expected payments due amounted to £66k in 2018/19 (£84k in 2017/18).

10 External audit costs

The Group has incurred the following costs in relation to the audit of the Statement of Accounts, certification of grant claims and statutory inspections and to any non-audit services provided by the Commissioner's external auditors:-

2017/18 £'000		2018/19 £'000
	Police and Crime Commissioner:	
41	Fees payable to EY with regard to external audit services carried out by the appointed auditor for the year	32
	- Other services provided by EY	-
	Chief Constable:	
19	Fees payable to EY with regard to external audit services carried out by the appointed auditor for the year	14
	- Other services provided by EY	-
60		46

Fees paid by the PCC and the Chief Constable in 2018/19 were in line with the scale fee.

11 Nature of Expenses - Group

The Cost of Services includes the following items of income and expenditure:

2017/18 Expenditure in the CIES £'000		2018/19 Expenditure in the CIES £'000
	Note	
287,525	Employee Benefit Expenses	384,293
106,133	Other Service Expenses	115,191
11,392	Depreciation and Impairment	15,948
405,050	Total Expenditure	515,432
(38,202)	Grants, contributions and reimbursements	(36,782)
(22,822)	Fees, charges and other service income	(24,641)
(61,024)	Total Income	(61,423)
344,026	Net Cost of Services	454,009

- a) Employee benefit expenses include pay, employer national insurance contributions, employer pension contributions and other employee benefits. Accounting adjustments are then made under IAS19 so that the expenditure in the CIES reflects the current service cost of the benefit granted in the period, rather than the payments made.

Notes to the core financial statements

- b) Other service expenses include costs relating to premises, transport, supplies and services. An accounting adjustment is made so that the charge to the CIES also includes revenue expenditure charged to capital under statute (REFCUS).
- c) Depreciation and impairment charges are made to the CIES to reflect the use of fixed assets during the period. These are not chargeable to the general fund.

Income received from external customers is analysed by service in the table below:

2017/18 £'000	2018/19 £'000
(22,815) Operational policing services	(24,174)
(7) Office of the Police and Crime Commissioner	(467)
- Police and Crime Commissioner - Commissioning	-
- Police and Crime Commissioner - Estate	-
- Other items not allocated to services	-
(22,822) Total income from external customers analysed by service	(24,641)

Nature of expenses – PCC

2017/18 Expenditure in the CIES £'000	Note	2018/19 Expenditure in the CIES £'000
1,833 Employee Benefit Expenses	a	2,003
18,789 Other Service Expenses	b	21,692
11,392 Depreciation and Impairment	c	15,948
32,014 Total Expenditure		39,643
(2,545) Grants, contributions and reimbursements		(2,482)
(7) Fees, charges and other service income		(467)
(2,552) Total Income		(2,949)
29,462 Net Cost of Services		36,694

- a) Employee benefit expenses include pay, employer national insurance contributions, employer pension contributions and other employee benefits.
- b) Other service expenses include costs relating to premises, transport, supplies and services. An accounting adjustment is made so that the charge to the CIES also includes revenue expenditure charged to capital under statute (REFCUS).
- c) Depreciation and impairment charges are made to the CIES to reflect the use of fixed assets during the period. These are not chargeable to the general fund.

Notes to the core financial statements

Income received from external customers is analysed by service in the table below:

2017/18 £'000	2018/19 £'000
- Operational policing services	-
(7) Office of the Police and Crime Commissioner	(467)
- Police and Crime Commissioner - Commissioning	-
- Police and Crime Commissioner - Estate	-
- Other items not allocated to services	-
(7) Total income from external customers analysed by service	(467)

12 Related Parties

The Commissioner and the Group are required to disclose material transactions with related parties - bodies or individuals that have the potential to control or influence the Commissioner or to be controlled or influenced by the Commissioner. Disclosure of these transactions allows readers of the accounts to assess the extent to which the Commissioner might have been constrained in its ability to operate independently or might have secured the ability to limit another party's ability to bargain freely with the Commissioner. In this disclosure, the Chief Constable, as a wholly-owned subsidiary, is included and the note covers the Group as a whole.

The UK Government exerts significant influence through legislation and grant funding. The value of grants received is shown in the Income and Expenditure Account and further details of specific additional grants received are given in note 7.

The Chief Constable makes contributions to pension schemes for both uniformed officers and non-uniformed staff. The Police Pension Schemes are administered by the Chief Constable and the Chief Constable paid £29.1m to the Police Pension Fund as contributions in respect of existing officers and those retiring due to ill-health in the year (£28.1m in 2017/18). The Local Government Pension Scheme is administered by Hampshire County Council and the Chief Constable made employer's contributions of £15.8m in 2018/19 (£14.5m in 2017/18).

The Chief Finance Officer (CFO) to the Commissioner and the CFO to the Chief Constable are both employed by Hampshire County Council. The governance arrangements of the Commissioner and Chief Constable and the independence and professional status of each CFO, ensure that these relationships are not compromised.

The Code also requires members of the Office of the Police and Crime Commissioner, Chief Officers in the Constabulary and certain other senior officers to declare if there were any related party (e.g. close family or business associates) transactions due to their ability to influence spending decisions. There were no related party transaction disclosures in 2018/19 (none in 2017/18).

Notes to the core financial statements

The Commissioner and Chief Constable are party to a number of joint working arrangements, providing a wide range of operational policing and business support services both within Hampshire and throughout the South East Region. The key collaborations are as follows:-

Activity	Partners	Lead/ Host	PCC share of costs £m
Joint working for support services	Hampshire County Council (HCC), Hampshire Fire and Rescue Services (HFRS)	HCC	6.3
Joint ICT/Information Management Department	Thames Valley Police (TVP)	TVP	18.6
South East Organised Regional Organised Crime Unit (SEROCU)	South East Region Forces (TVP, Surrey, Sussex)	TVP	3.0
Joint Operations Unit	Thames Valley Police (TVP)	TVP	23.4

In all of these, Governance arrangements are in place which means that each party can influence the work and priorities of each activity and will have a role in budget setting and overall strategic direction. Where there is a host organisation, they will have day to day operational responsibility and may recruit key post holders. They may also employ the staff working across the partnership area. Where key decisions are made, however, this is generally by a simple majority and no force, authority or combination of such would have de facto control or joint control of the partnership. All of these partnerships have been reviewed in terms of whether they should be part of the group accounts and it has been concluded that they do not. Consequently, the income and expenditure is reported in the single entity accounts of the Commissioner and Chief Constable as appropriate.

13 Capital financing requirement

The Commissioner's borrowing for capital purposes is controlled under the CIPFA Prudential Code for Capital Finance in Local Authorities. The total borrowing is expressed as the Capital Financing Requirement (CFR).

The total amount of capital expenditure incurred in the year is shown in the table below together with the resources that have been used to finance it. Where capital expenditure is to be financed in future years by charges to revenue as assets are used by the Council, the expenditure results in an increase in the Capital Financing Requirement (CFR), a measure of the capital expenditure incurred historically by the Council that has yet to be financed. The CFR is analysed in the second part of this note

Revenue Expenditure Funded From Capital Under Statute

Expenditure incurred during the year that may be capitalised under statutory provisions but that does not result in the creation of a non-current asset has been charged as expenditure to the relevant service in the Comprehensive Income and Expenditure Statement in the year. Where it is determined that the cost of this expenditure will be met from existing capital resources or by borrowing, a transfer in the Movement in Reserves Statement from the General Fund to the Capital Adjustment Account then reverses out the amounts charged so that there is no impact on the level of council tax.

2017/18 £'000	Capital financing and expenditure	2018/19 £'000
42,399	<i>Opening Capital Financing Requirement</i>	50,066
	<i>Capital investment</i>	
5,292	Operational assets	5,884
10,575	Non-operational assets	25,413
284	Revenue Expenditure funded from capital under statute	2,169
	<i>Sources of finance</i>	
(2,172)	Capital receipts	(7,128)
(1,159)	Government grants and contributions	(11,371)
	- Donated assets	-
(3,963)	Use of reserves (Revenue contributions to capital)	(5,781)
(1,190)	Sums from revenue (Minimum revenue provision - MRP)	(1,190)
50,066	<i>Closing Capital Financing Requirement</i>	58,062
	<i>Explanation of movements in year</i>	
7,667	Increase/ (decrease) in underlying need to borrow	7,996
7,667	<i>Increase/ (decrease) in Capital Financing</i>	7,996

£31.3m of capital expenditure was on property, plant and equipment and vehicles as shown above, with the balance (£2.1m) being expended on premises which the Commissioner does not own but is occupied by his staff and officers under joint-working arrangements, including the joint police and fire strategic headquarters at Eastleigh. The expenditure on non-operational assets in 2018/19 relates to the continuing expenditure on the programme to rationalise operational property across the force area, to provide neighbourhood offices for safer neighbourhood teams for the relocation of the operational headquarters for the Constabulary and to purchase and prepare sites for Police Investigation Centres. Once complete, these non-operational assets will be reclassified and will become operational (i.e. used in the delivery of services).

Under the Prudential Code arrangements, the Commissioner is permitted to borrow money to finance capital expenditure as long as the borrowing is prudent, affordable and sustainable. No new borrowing was taken out in 2018/19 (Nil in 2017/18).

Minimum Revenue Provision for the repayment of debt

The Commissioner is required by law to make a 'minimum revenue provision' (MRP) for the repayment of debt. The regulations in place prior to 2007/08 required this MRP to be set at 4% of the Commissioner's capital financing requirement less the 'relevant amount', which is a statutory measure of the Commissioner's net indebtedness to fund capital expenditure.

The Commissioner has adopted the policy first approved in June 2008 to calculate the minimum revenue provision for the repayment of debt - which is a statutory charge to the Comprehensive Income and Expenditure Account - on the basis of the previous regulations in respect of capital expenditure supported by Government grant. The MRP for all unsupported borrowing will be based on the asset life.

14 Leases

Leases are classified as finance leases where the terms of the lease transfer substantially all the risks and rewards incidental to ownership of the property, plant or equipment from the lessor to the lessee. All other leases are classified as operating leases.

Where a lease covers both land and buildings, the land and buildings elements are considered separately for classification.

Arrangements that do not have the legal status of a lease but convey a right to use an asset in return for payment are accounted for under this policy where fulfilment of the arrangement is dependent on the use of specific assets.

14a The Commissioner as Lessee

Finance Leases

Property, plant and equipment held under finance leases is recognised on the Balance Sheet at the commencement of the lease at its fair value measured at the lease's inception (or the present value of the minimum lease payments, if lower). The asset recognised is matched by a liability for the obligation to pay the lessor. Initial direct costs are added to the carrying amount of the asset. Premiums paid on entry into a lease are applied to writing down the lease liability. Contingent rents are charged as expenses in the periods in which they are incurred.

Lease payments are apportioned between:

- a charge for the acquisition of the interest in the property, plant or equipment – applied to write down the lease liability, and
- a finance charge (debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement).

Property, Plant and Equipment recognised under finance leases is accounted for using the policies applied generally to such assets, subject to depreciation being charged over the lease term if this is shorter than the asset's estimated useful life (where ownership of the asset does not transfer to the Commissioner at the end of the lease period).

Notes to the core financial statements

The Commissioner has one building which was originally acquired under a finance lease under IAS17. No other assets have been identified as being acquired under finance leases. This operational building is carried as property, plant and equipment in the Balance Sheet and is subject to depreciation in accordance with its class of asset.

A premium was paid when a 999-year lease for the building commenced in March 2001 and a peppercorn rent is payable for the remainder of the lease term. The minimum lease payment is not recognised as a long-term liability in the Commissioner's accounts due to its immateriality. The annual lease payment is recognised as a revenue expense. The net book value of the property at 31 March 2019 was £4.301m (£4.377m at 31 March 2018).

Operating Leases

The Commissioner leases a number of operational buildings. Rentals paid under operating leases are charged to the Comprehensive Income and Expenditure Statement as an expense of the services benefitting from use of the leased property, plant or equipment. Charges are made on a straight-line basis over the life of the lease, even if this does not match the pattern of payments (e.g. there is a rent-free period at the commencement of the lease). The expenditure charged to the net cost of services in the Comprehensive Income and Expenditure Statement during the year in relation to these leases was £2.946m (£1.568m in 2017/18).

The future minimum lease payments due under non-cancellable leases in future years are:

31 March 2018		31 March 2019
£'000		£'000
1,316	Not later than one year	2,862
2,820	Later than one year and not later than five years	11,223
1,585	Later than five years	49,675
5,721	Total	63,760

The increase in leases costs shown in the table above are due to the new Eastern Police Investigation Centre.

14b The Commissioner as Lessor

Where the Commissioner grants an operating lease over a property or an item of plant or equipment, the asset is retained in the Balance Sheet. Rental income is credited to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement. Credits are made on a straight-line basis over the life of the lease, even if this does not match the pattern of payments (e.g. there is a premium paid at the commencement of the lease). Initial direct costs incurred in negotiating and arranging the lease are added to the carrying amount of the relevant asset and charged as an expense over the lease term on the same basis as rental income.

No significant property, plant, equipment or other assets are leased, either as finance leases or operating leases.

15 Property, Plant and Equipment (PP&E) movements – Group and Commissioner

Assets that have a physical substance and are held for use in the provision of services or for administrative purposes and that are expected to be used during more than one financial year are classified as Property, Plant and Equipment. PP&E assets are shown in the balance sheet at their written-down value after taking account of depreciation.

Recognition

All expenditure above the de minimis limit of £10,000 (£6,000 for vehicles) on the acquisition, creation or enhancement of property, plant and equipment is capitalised on an accruals basis. Expenditure that maintains, but does not extend, the previously assessed standards of performance of the asset (e.g. repairs and maintenance) is charged to the relevant service area within the Comprehensive Income and Expenditure Statement as it is incurred.

Measurement

PPE assets are initially measured at cost, comprising all expenditure that is directly attributable to bringing the asset into working condition for its intended use. Assets are then carried in the Balance Sheet using the following measurement bases:

- Operational Land and Buildings - current value, determined as the amount that would be paid for the asset in its existing use. Where there is no market-based evidence of fair value because of the specialist nature of an asset, depreciated replacement cost (DRC) is used as an estimate of fair value.
- Surplus Land and Buildings – at fair value in highest and best use, the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date
- Vehicles, Plant and Equipment are measured at depreciated historical cost (as this is not materially different from the current value).
- Assets under construction – Historic cost (not subject to depreciation until operational);

PPE assets included in the Balance Sheet at fair value or current value (i.e. land and buildings) are re-valued where there have been material changes in the value, or a change in use, and as a minimum every five years.

Increases in valuations are matched by credits to the Asset Revaluation Reserve to recognise unrealised gains. Exceptionally, gains might be credited to the relevant service area within the Comprehensive Income and Expenditure Statement where they arise from the reversal of an impairment loss previously charged to the service area. The Asset Revaluation Reserve only contains revaluation gains recognised since 1 April 2007, the date of its formal implementation. Gains arising before that date form part of the Capital Adjustment Account.

Impairment

Decreases in value (due to either physical impairment or market prices) are either charged to the Asset Revaluation Reserve (to the extent that it has any balance relating to the

specific asset) or to the relevant service area within the Comprehensive Income and Expenditure Statement.

Where an impairment loss is reversed subsequently, the reversal is credited to the relevant service line(s) in the Comprehensive Income and Expenditure Statement, up to the amount of the original loss, adjusted for depreciation that would have been charged if the loss had not been recognised. However, revaluation losses and subsequent reversals are not permitted by statutory arrangements to impact on the General Fund Balance and therefore any gains or losses are reversed out of the General Fund Balance (in the Movement in Reserves Statement) and are transferred to the Capital Adjustment Account.

Depreciation

Depreciation is defined as the measure of the wearing out, consumption, or other reduction in the useful economic life of a fixed asset. Depreciation is charged on all assets, with the exception of land where no depreciation is charged. Where it is charged, depreciation is calculated on the following basis:-

- Property, plant and equipment assets (PP&E), with the exception of vehicles, are depreciated on a straight line basis over the useful life of the property as estimated by the valuer. Buildings have a half year depreciation in the year of acquisition and sale.
- Vehicles are depreciated on a straight line basis over the useful life of the asset less an estimated residual value which is excluded from this calculation. Where a vehicle has reached the end of its expected life but the vehicle is retained, the residual value is revised and this forms the depreciation charge for the year. Vehicles have a full year of depreciation in the year of purchase but are not depreciated in the year of sale;
- Intangible non-current assets are amortised on a straight line basis and no residual value is assumed unless this can be measured reliably.

The above methodologies reflect the relative speed of depreciation of buildings and vehicles.

The useful lives of land and buildings are advised by a qualified valuer on an asset by asset basis. Buildings have variable asset lives, with most operational buildings having assumed to have a useful life of 90 years at the point of construction, and dwellings having a life of 61 years. New buildings are valued at the point of completion and the asset life for accounting purposes assessed at that time.

Useful lives of vehicles are advised by the Force's Transport Department for each individual vehicle. Vehicles are typically given an asset life of between 3 and 5 years, although this represents the extent of their useful life for operational purposes and the residual value represents an estimate of their economic value at the anticipated point of disposal.

IT and other short-life equipment is generally assigned a useful economic life of between 5 and 10 years.

Useful lives of other assets are advised by a suitably qualified individual. There are no changes to the methodology.

Depreciation is charged to the relevant revenue service area within the Comprehensive

Income and Expenditure Statement. However, depreciation charges are not permitted by statutory arrangements to have an impact on the General Fund Balance and therefore all depreciation charges are reversed out of the General Fund Balance (in the Movement in Reserves Statement) and are transferred to the Capital Adjustment Account.

Revaluation gains are also depreciated, with an amount equal to the depreciation between current value depreciation charged on assets and the depreciation which would have been chargeable based on their historical cost being transferred each year from the Revaluation Reserve to the Capital Adjustment Account.

Componentisation

The Code recognises that an asset may consist of several different and physical components. If an item of Property, Plant and Equipment (PP&E) comprises two or more significant components with substantially different useful lives, then each component is treated separately for depreciation purposes – i.e. as if each component were a separate in its own right – and depreciated over its individual useful life.

In accordance with the Code, the carrying amount of a replaced or restored component is de-recognised with the carrying amount of the new component being recognised. This accounting treatment applies regardless of whether the replaced part had been depreciated separately. Where it is not possible to determine the carrying amount of the replaced part, the cost of the new part is used as an indication of the cost of the replaced part at the time it was acquired or constructed.

For the purposes of componentisation, the Commissioner has applied a de minimis limit for each individual component of £500,000 and 20% of the overall asset cost. Thus, component assets that are part of a larger asset which has a value of at least £2.5m and the estimated cost of the component is at least £500,000 and 20% of the cost of the larger asset will be recorded and depreciated separately if that component has a materially different useful life and/or method of depreciation to the main asset. Items below these limits are not considered to be material.

Where expenditure on refurbishing or replacing elements of PP&E is incurred, and which is below the materiality threshold but which is properly recorded as being capital, the written down value of the replaced or refurbished element of the main asset will be written out of the asset register to avoid double-counting of expenditure which does not add value.

Any Revaluation Reserve balances associated with componentised assets will be attributed to the building component (s) as it is considered unlikely that plant and equipment components will give rise to revaluation gains and losses independently of the structure of the building. However, the plant and equipment components may be subject to impairment.

Disposals and assets held for sale

When a material PPE asset is to be disposed of, and meets all of the criteria of an asset held for sale, it is reclassified as Assets Held for Sale. If the carrying amount at the time of reclassification is higher than the fair value less costs to sell the asset, then the asset held for sale will be impaired. This impairment is charged to other costs in the Comprehensive

Income and Expenditure Statement. Assets that are being abandoned or scrapped are written out without being reclassified.

When the asset is disposed of, or decommissioned, the carrying value of the asset is written out to the Other Operating Income and Expenditure line within the Comprehensive Income and Expenditure Statement as part of the gain or loss on disposal. The written-off value of disposals is not a charge against council tax, as the cost of fixed assets is fully provided for under separate arrangements for capital financing. Amounts are appropriated to the Capital Adjustment Account from the General Fund Balance in the Movement in Reserves Statement. Any revaluation gains accumulated for the asset in the Asset Revaluation Reserve are written out to the Capital Adjustment Account by way of a transfer between the accounts.

Amounts received in excess of £10,000 are categorised as capital receipts and are credited to the other operating expenditure line within the Comprehensive Income and Expenditure Statement as part of the gain or loss on disposal. They are then appropriated to the Capital Receipts Reserve from the General Fund Balance within the Movement in Reserves Statement and then can only be used for new capital investment or set aside to reduce the County Council's underlying need to borrow (the capital financing requirement).

Property, Plant and Equipment Movement on balances

This statement summarises capital expenditure incurred on property, plant and equipment assets which will be of use to the Group in future financial years. Future and current taxpayers will benefit from these assets and such costs are therefore not necessarily charged to the revenue account in the year that the asset is acquired. All non-operational assets are assets under construction. When these are completed and brought into use the asset is reclassified.

As there is no distinction between the Group and the Commissioner, there is no separate statement for the Commissioner. Additionally, as the Chief Constable does not hold any assets, there is no requirement to produce a statement for that entity.

Capital commitments

As at 31 March 2019 the Commissioner had committed capital expenditure of £2.8m. The majority of this commitment is in relation to ongoing works for the Estates Change Programme (£2.5m).

Intangible assets

Prior to the introduction of IFRS, intangible assets were shown in the same disclosure as what are now property, plant and equipment assets. These are now shown separately. However, the Commissioner has no material intangible assets and those which he does have are fully amortised.

16 Valuation Information

The statement below shows the progress of the Commissioner's rolling programme for the revaluation of property, plant and equipment assets. The main operational sites were revalued in 2016/17. In addition, with the move to the new IFRS13 accounting standard, surplus and held for sale properties were revalued to ensure that the carrying value was on a fair value basis.

Valuations were carried out by RICS Registered Valuers in the Estates and Development Services department of Hampshire County Council and were reviewed and authorised by Jane Stanford MRICS and Alexandra Byrne MRICS of the same department.

17 Financial Instruments

A financial instrument is a contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Non-exchange transactions, such as those relating to taxes and government grants do not give rise to financial instruments. Financial instruments are recognised in the Balance Sheet when the authority becomes a party to the contractual provisions of the instrument.

At 1 April 2018 the standard that covers how financial instruments are accounted for changed. An additional table has been added to the accounts to show how financial assets have been re-categorised on transition to this new accounting standard.

Financial assets

Financial assets are classified into one of three categories dependent on both:

- the reason the authority is holding the asset (e.g. to collect the contractual cash flows until maturity and / or to sell before maturity); and

Notes to the core financial statements

- the nature of the asset's contractual cash flows (e.g. just principal and interest or something more complicated).

Reason for holding the asset	Nature of the contractual cash flows	Classification category
Holding assets in order to collect contractual cashflows	Solely payments of principal and interest	Amortised Cost
Holding assets in order to collect contractual cashflows as well as selling the assets	Solely payments of principal and interest	Fair value through other comprehensive income
Holding assets that do not fall into either of the above categories	Not solely payments of principal and interest	Fair value through profit and loss

As an exception to the above, at initial recognition an authority may make an irrevocable election to present changes in the fair value of investments in equity instruments through other comprehensive income rather than through profit and loss. This is dependant on these investments being held for strategic rather than trading purposes. Such investments are then classified as Fair value through other comprehensive income.

All financial assets are initially measured at fair value and recognised on the balance sheet. How the financial assets are subsequently measured, and how unrealised gains or losses are shown in the accounts is dependent on what category the asset has been classified as.

Classification category	Subsequent measurement basis	Presentation of unrealised gains & losses
Amortised Cost	Amortised Cost	A disclosure note
Fair Value through Other Comprehensive Income (FVOCI)	Fair Value	The 'Other comprehensive income' section of the Comprehensive Income & Expenditure Statement (CIES)
Fair Value through Profit & Loss (FVPL)	Fair Value	The 'Financing and investment income & expenditure' section of the CIES.

A financial asset is derecognised from the Balance Sheet when the contractual rights to the cash flows expire, or the financial asset is transferred.

Interest or dividends are credited to the Financing and Investment Income and Expenditure line in the CIES. Dividends are credited when they become receivable by the authority. Interest income is credited based on the amortised cost of the asset multiplied by its effective interest rate.

Financial liabilities

All financial liabilities are classified as subsequently measured at amortised cost. This means they are initially measured at fair value before subsequently being measured at amortised cost. The amount presented in the Balance Sheet is therefore the outstanding principal repayable (plus accrued interest);

Annual charges to the Financing and Investment Income and Expenditure line in the CIES for interest payable are based on the carrying amount of the liability, multiplied by the effective interest rate for the instrument. The amount payable each year therefore matches to the loan agreement.

Impairment of Financial Instruments – Expected Credit Loss (ECL) model

At each reporting date, using reasonable and supportable forward looking information that is available without undue cost or effort, an authority shall assess whether the risk of default occurring over the life of the financial instrument has increased significantly since it was initially recognised.

The basis of this assessment determines the ECL that is then charged to the 'Financing and investment income & expenditure' section of the CIES:

Risk of default has increased significantly	ECL equal to the anticipated loss over the lifetime of the financial instrument
Risk of default has not increased significantly	ECL equal to the anticipated loss over the next 12 month period

A simplified approach for calculating the ECL can be used for trade receivables, contract assets and lease receivables that do not contain a significant financing component.

Total	(30,950)	(30,450)	(26,478)	(18,094)

Surplus cash is invested in short term deposits to earn interest. Investments on deposit are valued at their nominal value. Investment income is recognised on receipt. The value of long-term (i.e. greater than one year) investments and loans is shown on the balance sheet with the 'current portion' of debt (i.e. that which is due in the following accounting period) being attributed to current liabilities (i.e. creditors) or current assets (i.e. debtors). The balance on these long-term liabilities or assets is shown in the appropriate category on the balance sheet.

17a Fair values of Assets and Liabilities

Financial assets classified as fair value through other comprehensive income (FVOCI) or fair value through profit and loss (FVPL) are carried in the Balance Sheet at fair value. For most assets, including bonds, treasury bills and shares in money market funds and other pooled funds, the fair value is taken from the market price. The fair values of other instruments have been estimated calculating the net present value of the remaining contractual cash flows at 31st March 2019, using the following methods and assumptions:

- Certificates of deposit have been discounted at market interest rates for instruments of similar credit quality and remaining term to maturity

All other financial assets and financial liabilities are carried in the Balance Sheet at amortised cost. Their fair values have been estimated by calculating the net present value of the remaining contractual cash flows at 31 March 2019, using the following methods and assumptions:

- Loans borrowed by the PCC have been valued by discounting the contractual cash flows over the whole life of the instrument at the appropriate market rate for local authority loans;
- No early repayment or impairment is recognised for any financial instrument;
- The fair value of short-term instruments, including trade payables and receivables is assumed to approximate to the carrying amount;
- The fair values of investments have been discounted at the market rates for similar instruments with similar remaining terms to maturity on 31 March;

Liabilities

The fair value of the long-term liabilities is higher than the carrying amount because the Commissioner's portfolio of loans includes a number of loans where the interest payable is higher than the rates available for similar loans at the Balance Sheet dates. This shows a notional loss (based on economic conditions at the balance sheet date) arising from a commitment to pay interest to lenders above current market rates at that time.

Assets

Short term debtors and creditors are carried at cost as this is a fair approximation of their value.

Long term debtors shown on the balance sheet consist largely of housing assistance loans and the carrying value of long-term debtors is fair value.

Housing assistance loans, totalling £0.92m, were offered to police officers and operational police staff between 2004/05 and 2007/08. Interest free loans of up to £20,000 were made.

Notes to the core financial statements

A charge was placed on the property purchased and this becomes repayable at the end of 15 years or earlier in the case of a sale. Because the prevailing interest rate at the time the advance was made was greater than the actual rate of interest applied (i.e. 0%) transactions of this nature were termed 'soft loans'.

The fair value of the remaining housing assistance loans is £0.30m (£0.35m at 31 March 2018). This is now the same as the carrying value.

Fair values are shown in the table below, split by their level in the fair value hierarchy:

- Level 1 - fair value is only derived from quoted prices in active markets for identical assets or liabilities, e.g. bond prices;
- Level 2 - fair value is calculated from inputs other than quoted prices that are observable for the asset or liability, e.g. interest rates or yields for similar instruments;
- Level 3 - fair value is determined using unobservable inputs, e.g. non-market data such as cash flow forecasts or estimated creditworthiness.

	Fair Value level	Balance Sheet		Fair Value	
		31/03/2018 £'000	31/03/2019 £'000	31/03/2018 £'000	31/03/2019 £'000

Total		30,464	17,978	30,449	17,979
Assets for which fair value is not disclosed *		36,063	29,018		
Total financial assets		66,527	46,996		

Notes to the core financial statements

Recorded on balance sheet as:		
Long term investments	18,747	10,325
Long term debtors	355	295
Short term investments	35,280	21,082
Cash and cash equivalents	1,032	6,047
Short term debtors	11,113	9,247
Short term service loans		
Total financial assets	66,527	46,996

* the fair value of short term liabilities and assets including trade payables and receivables is assumed to be the approximate to the carrying amount.

17b Trade Receivables (Debtors)

Within debtors, accounts receivable, classified as receivable financial instruments, are due within one year with no interest being payable. As such, the fair value of these receivables is the same as the original invoice amount. Other debtor balances such as payments in advance and government debtors (relating, for example, to vat refunds due) are non contractual and outside the scope of the "financial instruments" regulations.

31 March 2018 £'000		31 March 2019 £'000
11,113	Financial instrument debtors	9,247
27,533	Non-financial instrument debtors	21,105
38,646	Total debtors and prepayments	30,352

The Commissioner reviews the exposure to debtors failing to pay amounts which are due to the Commissioner on an annual basis and assesses whether there is a likelihood that a proportion of debts may be considered to be impaired on the basis of experience that some debts will be unrecoverable. The sum assessed as an expected loss allowance for receivables is £325,000 as at 31 March 2019 (£395,000 as at 31 March 2018).

17c Trade Payables (Creditors)

Trade payables (creditors), classified as financial liabilities, are paid within 30 days of the date shown on the invoice. As such, the fair value of these liabilities is the same as the original invoice amount.

Short-term creditors – Group

31 March 2018 £'000		31 March 2019 £'000
(25,438)	Financial instrument creditors	(17,415)
(11,760)	Non-financial instrument creditors	(12,644)
(37,198)	Total short term creditors	(30,059)

The short-term creditors exclude other items such as accrued interest and the principal on long-term borrowing due to be paid in the 12 months after the balance sheet date: these are shown separately under Current Liabilities in the Balance Sheet.

Short-term creditors – PCC

31 March 2018 £'000		31 March 2019 £'000
(25,438)	Financial instrument creditors	(17,415)
(7,652)	Non-financial instrument creditors	(8,447)
(33,090)	Total short term creditors	(25,862)

17d Financial liabilities at amortised cost (Long-term borrowing)

The Commissioner's borrowing strategy for 2018/19 was set in April 2018. The PCC's chief objective when borrowing money was to strike an appropriately low risk balance between securing low interest costs and achieving cost certainty over the period for which funds are required. The flexibility to renegotiate loans should the OPCC's long-term plans change was deemed a secondary objective.

Given the significant cuts to public expenditure and in particular to local government funding, the OPCC's borrowing strategy remained to address the key issue of affordability without compromising the longer-term stability of the debt portfolio. With short-term interest rates currently much lower than long-term rates, it was likely to be more cost effective in the short-term to use internal resources.

By doing so, the OPCC was able to reduce net borrowing costs (despite foregone investment income) and reduce overall treasury risk. The benefits of internal borrowing will be monitored regularly against the potential for incurring additional costs by deferring borrowing into future years when long-term borrowing rates are forecast to rise.

Notes to the core financial statements

No new long-term borrowing was taken out in 2018/19 due to a combination no requirement to resource the capital programme, the cost of carry and the level of internal balances and reserves which are available for temporary financing.

The Commissioner has 19 fixed long-term loans from the Public Works Loans Board (PWLB). These are analysed below:-

Analysis of loans by maturity

	Average interest rate (Current)	Outstanding loans	
		31 March 2018 £'000	31 March 2019 £'000
Less than 1 year	2.46%	(857)	(500)
Between 1 and 2 years	2.65%	(500)	(500)
Between 2 and 5 years	2.65%	(750)	(600)

Between 15 and 20 years	4.33%	(19,000)	(17,000)
Between 20 and 25 years	4.41%	(2,000)	0
	4.18%	(31,807)	(30,950)

The Code requirements in respect of accounting for financial instruments apply to long-term borrowing. There is a requirement to show the fair value of the Commissioner's fixed rate loans. This effectively shows the fair value of each loan in the context of rates applicable for similar loans at the balance sheet date. The PWLB calculates the fair value on these loans on the basis of what it would cost to redeem the loans early. Thus, if current interest rates are lower than the loan rate, then the repayment sum will be higher than the principal amount. Where current interest rates are higher than the rate of an existing fixed rate loan, this works in reverse, making the fair value higher than the book value. However, the Code of Practice notes that the PWLB rate is based on the early repayment of debt and that an alternative valuation would be based on the rates applicable to new loans. Both of these methods have some validity and both are provided.

Most of the Commissioner's loan portfolio of £31.0m was taken out between 2008/09 and 2011/12 (£34.24m originally advanced). The PWLB loans had a fair value – based on the repayment rate - of £43.7m at 31 March 2019 (£43.6m at 31 March 2018). The fair value based on the new accounting standard (IFRS 13) was £39.7m at 31 March 2019 (£40.1m at 31 March 2018).

Financial guarantee contracts

When a financial guarantee is given, whereby the liabilities of a third party are guaranteed in the event of a default, the Code requires that this is recognised in the accounts at fair value. The fair value is assessed in relation to the level of the financial guarantee and the probability of this being called.

By being the signatory to property leases and by being the employer of all of the staff, the Commissioner has effectively guaranteed the lease payments for premises occupied by the ACPO Criminal Records Office (ACRO) and the ACPO Vehicle Crime Intelligence Service (AVCIS). In 2015/16 this arrangement was extended to include the National Wildlife Crime Unit (NWCU). However, in respect of the premises and any prospective redundancy costs, sureties have been received and are held as deposits in the event that the services are

discontinued. The sums held represent the liability to pay outstanding leasing payments under the lease and any redundancy costs which may arise. As such, these sums are not premia paid to the Commissioner for bearing a potential risk. Rather, these are deposits held to pay all sums due in the event of either of these services ceasing with insufficient notice to mitigate any residual liabilities. Consequently, there is no recognition of these arrangements as financial guarantees in the statement of accounts.

Risks

The Commissioner has adopted CIPFA's Code of Practice on Treasury Management (and subsequent amendments) and complies with The Prudential Code for Capital Finance in Local Authorities (both revised in 2017). As part of the adoption of the Treasury Management Code, the Commissioner approves a Treasury Management Strategy before the commencement of each financial year. The Strategy sets out the parameters for the management of risks associated with Financial Instruments. The Commissioner also produces Treasury Management Practices specifying the practical arrangements to be followed to manage these risks.

The Treasury Management Strategy includes an Annual Investment Strategy in compliance with the guidance provided by the CLG for local authorities. This guidance emphasises that priority is to be given to security and liquidity, rather than yield. The Commissioner's Treasury Strategy, together with his Treasury Management Practices seeks to achieve a suitable balance between risk and return or cost.

The Commissioner is exposed to several risks arising from the use of financial instruments:

- Credit risk – the possibility that other parties might fail to pay amounts due to the Commissioner;
- Liquidity risk – the possibility that the Commissioner might not have funds available to meet its commitments to make payments;
- Market risk – the possibility that financial loss might arise for the Commissioner as a result of changes in such measures as interest rates or stock market movements.

Credit Risk

Credit risk is the possibility that banks and financial institutions will fail to meet their contractual obligations, causing a loss to the Commissioner. The OPCC manages credit risk by ensuring that treasury investments are only placed with organisations of high credit quality as set out in the Treasury Management Strategy. These include commercial entities with a minimum long-term credit rating of A-, the UK government, other local authorities, and organisations without credit ratings upon which the Commissioner has received independent investment advice. Recognising that credit ratings are imperfect predictors of default, the OPCC has regard to other measures including credit default swap and equity prices when selecting commercial entities for investment.

A limit of £10m of the total portfolio is placed on the amount of money that can be invested with a single counterparty (other than the UK government). For unsecured investments in banks, building societies and companies, a smaller limit of £5m applies. The OPCC also sets limits on investments in certain sectors. No more than £25m in total can be invested for a period longer than one year.

The credit quality of £8.5m of the Commissioner's investments is enhanced by collateral held in the form of covered bonds collateralised by residential mortgages. The

Notes to the core financial statements

collateral significantly reduces the likelihood of the OPCC suffering a credit loss on these investments.

The table below summarises the credit risk exposures of the Commissioner's investment portfolio at 31 March 2019 by type of investment counterparty:

Credit Rating	Long-term		Short-term	
	31 March 2018	31 March 2019	31 March 2018	31 March 2019
	£'000	£'000	£'000	£'000
AAA	9,543	4,007	11,704	12,161
AA+	-	-	-	-
AA	-	-	-	-
AA-	-	-	1,030	3,004
A+	-	-	-	-
A	-	-	5,009	-
A-	-	-	-	-
AAA Money market funds	-	-	-	-
Unrated local authorities	4,012	1,004	18,555	14,563
Unrated pooled funds	5,204	5,317	-	-
Total Investments	18,759	10,328	36,299	29,728

Liquidity Risk

Liquidity risk is the possibility that the Commissioner will be unable to raise funds to meet its payment commitments as they fall due. As the Commissioner has ready access to borrowing through the Public Works Loan Board and commercial banks, there is no perceived risk that the Commissioner will be unable to raise finance to meet its commitments under financial instruments. Instead, the risk is that the Commissioner will be bound to replenish a significant proportion of its borrowings at a time of unfavourable interest rates. This risk is managed by maintaining a spread of fixed rate loans, limiting the amount of the Commissioner's borrowing that matures in any one financial year.

The maturity analysis of the principal sums borrowed as at 31 March 2019 is as follows:

Outstanding debt - maturity periods	31 March 2018	% of total debt portfolio	31 March 2019	% of total debt portfolio
	£'000	%	£'000	%
Less than 1 year	(857)	3	(500)	2
Between 1 and 2 years	(500)	2	(500)	2
Between 2 and 5 years	(750)	2	(600)	2
Between 5 and 10 years	(700)	2	(350)	1
Between 10 and 15 years	(8,000)	25	(12,000)	39
Between 15 and 20 years	(19,000)	60	(17,000)	55
Between 20 and 25 years	(2,000)	6	-	-
Total	(31,807)	100	(30,950)	100

Market Risks

Interest Rate Risk. The Commissioner is exposed to risks arising from movements in interest rates. The Treasury Management Strategy aims to mitigate these risks by setting upper limits on its net exposures to fixed and variable interest rates. At 31 March 2019, all of the £30.95m of principal borrowed was at fixed rates. The OPCC's investments in floating rate notes (£16.15m at 31 March 2019), and pooled funds (£5.0m at 31 March 2019) are classed as being held at variable rates and exposed to interest rate risk.

Investments measured at amortised cost and loans borrowed are not carried at fair value, so changes in their fair value will have no impact on the Comprehensive Income and Expenditure Statement. However, changes in interest payable and receivable on variable rate borrowings and investments will be posted to the Surplus or Deficit on the Provision of Services. Movements in the fair value of fixed rate investments measured at fair value will be reflected in Other Comprehensive Income or the Surplus or Deficit on the Provision of Services as appropriate.

If all interest rates had been 1% higher (with all other variables held constant) the financial effect would be:

	£'000
Increase in interest payable on variable rate borrowing	-
Increase in interest receivable on variable rate investments	(337)
Decrease in fair value of investments held at FVPL	9
Impact on (Surplus) or Deficit on the Provision of Services	(328)
Decrease in fair value of investments held at FVOCI	-
Impact on Comprehensive Income and Expenditure	(328)
Decrease in fair value of loans and investments at amortised cost	57
Decrease in fair value of fixed rate borrowing	(4,218)

The approximate impact of a 1% fall in interest rates would have been as above but with the movement being reversed.

Price Risk. The market prices of the Commissioner’s fixed rate bond investments are governed by prevailing interest rates and the market risk associated with these instruments is managed alongside interest rate risk.

The commissioner’s investment in a pooled property fund is subject to the risk of falling commercial property prices and his investment in pooled equity funds are subject to the risk of falling share prices. This risk is limited by the Commissioner’s investment strategy. A fall in commercial property or share prices would result in a charge to the surplus or deficit on the Provision of Services which is then transferred to the Financial Instrument Adjustment Account – this would have no impact on the General Fund until the investment was sold.

Foreign Exchange Risk. The Commissioner has one significant financial asset denominated in a foreign currency (i.e. Euro), which it holds in a designated Euro currency bank account. Whilst the account balance is included in the Balance Sheet under cash and cash equivalents at the spot exchange rate pertaining on 31 March 2019, this is for accounting and reporting purposes only. The Euro account is held so that the Commissioner can account for the use of the EU grant it relates to and the donor bears the risk of any losses or benefits from any gains arising from movements in exchange rates. The Commissioner therefore has no exposure to loss arising as a result of adverse movements in exchange rates.

18 Cash and cash equivalents

Under the Code, Cash and Cash Equivalents are to be disclosed on the face of the Balance Sheet. Cash comprises cash in hand and repayable on demand deposits. The latter typically consisting of cash held in deposit accounts but subject to repayment on demand, and cash held in deposit accounts but subject to instant access. Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of change in value. The Code also stipulates that they are held for the purpose of meeting short-term cash commitments rather than for investment or other purposes. The Commissioner excludes term deposits or investment accounts requiring notice for withdrawal from the classification of Cash Equivalents as in terms of liquidity they are not equivalent to cash.

The Commissioner routinely uses short-term bank overdraft facilities which are repayable on demand, as an integral part of its cash management policy. Under these circumstances bank overdrafts are included as a component of cash and cash equivalents.

Cash and cash equivalents – Group and PCC

2017/18 £'000		2018/19 £'000
334	Cash in hand	339
1,031	Cash equivalents measured at amortised cost	1,001
0	Cash equivalents measured at fair value through profit & loss	7,650
(1,998)	Bank overdraft	(2,943)
(633)	Total	6,047

19 IAS19 (Pensions Accounting) entries and disclosures

Participation in pensions schemes

The Chief Constable employs the majority of staff who previously were under the employment of the Commissioner. As such, these accounts include all of the related IAS19 pensions' adjustments for those employees in the LGPS. However, a small number of staff work directly for the Commissioner on delivering his activities. Notwithstanding this, on the grounds that any proportionate share of the IAS19 entries would not be material to the accounts, all of the LGPS IAS19 adjustments are contained in the Chief Constable's accounts.

As part of the terms and conditions of employment of its officers and other employees, the Commissioner and the Chief Constable offer retirement benefits. Although these benefits will not actually be payable until employees retire, the Chief Constable has a commitment to make the payments that needs to be disclosed at the time that employees earn their future entitlement.

The Chief Constable participates in a number of post employment schemes:

- The Local Government Pension Scheme (LGPS) for Police staff, administered by Hampshire County Council. This is a funded defined benefit scheme, meaning that the Chief Constable and employees pay contributions into a fund, calculated at a level intended to balance the pensions liabilities with investment assets;
- Arrangements for the award of discretionary post retirement benefits upon early retirement in respect of members of the LGPS. Liabilities are recognised when an award is made and the Chief Constable recognises gains and losses in full, immediately through Other Comprehensive Income and Expenditure. Note that the employer's liabilities under these arrangements are not material and the relevant transactions and liabilities are included with the overall LGPS funded scheme;
- Three schemes for police officers – the 1987, 2006 and 2015 schemes. These are unfunded defined benefit final salary schemes, meaning that there are no investment assets built up to meet the pensions liabilities, and cash has to be generated to meet actual pensions payments as they eventually fall due. Under the Police Pension Fund Regulations 2007, if the amount receivable by the pensions fund for the year is less than amount paid out, the Commissioner must annually transfer an amount required to meet the deficit to the pension fund. Subject to parliamentary approval, up to 100% of this cost is met by a central government pension top-up grant. If however the pension fund is in surplus for the year, the surplus is required to be transferred from the pension fund to the Commissioner to be then paid over to central government;
- The Commissioner is also liable for payment of initial and ongoing costs in respect of officers who receive injury pension. Injury awards are funded by the employer in their entirety and are not part of the pension fund account.

Note that in the following analyses, the 1987, 2006 and 2015 police schemes are combined into one disclosure. These schemes are valued separately by the external actuary but the charges and credits to the CIES and the net Balance Sheet liability are accounted for as a single item.

Transactions relating to retirement benefits

The cost of retirement benefits is recognised in the Net Cost of Services when they are earned by employees, rather than when the benefits are eventually paid as pensions. However, the charges made against the precept are based on the cash payable in the year, so the real cost of post employment/retirement benefits is reversed out of the General Fund via the Movement in Reserves Statement. The following transactions have been made in the Comprehensive Income and Expenditure Statement and the General Fund Balance via the Movement in Reserves Statement during the year:

	Unfunded Police Pension Schemes		LGPS (Police Staff)	
	2017/18 £'000	2018/19 £'000	2017/18 £'000	2018/19 £'000

Charge on General Fund	2,170	2,540	44,460	44,300

Pensions assets and liabilities recognised in the Balance Sheet

The nature of the schemes is explained in note 19 to these accounts and further information is also given in the police pension fund account. Under the projected unit method the current service cost will increase as the members of the scheme approach retirement.

There are no material prepaid or accrued pensions contributions at 31 March 2019.

The nature of the three police pension schemes in operation is explained in note 19 to these accounts. In addition to the police pension schemes the costs of injury pensions falls upon the income and expenditure account.

The amounts included in the Balance Sheet arising from the Chief Constable's obligation in respect of his defined benefit plan are as follows:-

Value at year ending	Police Pension Schemes		Injury Pensions (police officers)	
	31 March 2018	31 March 2019	31 March 2018	31 March 2019
	£m	£m	£m	£m
Present value of the defined benefit obligation	3,344.44	3,563.13	60.55	62.55
Fair value of plan assets	-	-	-	-
Net liability arising from the defined benefit obligation	3,344.44	3,563.13	60.55	62.55

Past service costs	-	-	-	(97)
Closing balance - 31 March	(59)	(63)	(3,867)	(4,126)

Note that, whilst not being part of the Police Pension Schemes, injury pensions are shown above for the purposes of completeness. Injury pensions are funded directly by the Chief Constable.

There is a large deficit on the pension schemes overall, and the police pensions schemes in particular. However, statutory arrangements for funding the deficit mean that the financial position of the Chief Constable remains healthy:

- the deficit on the Local Government Pension Scheme will be made good by increased contributions over the remaining working life of employees (i.e. before payments fall due) as assessed by the scheme actuary;
- finance is only required to be raised to cover discretionary benefits when the pensions are actually paid;
- finance is only required to be raised to cover police pensions when the pensions are actually paid. At present, 100% of the difference between what is paid out to retired members and the sum of contributions from current members and the Chief Constable is met by additional grant from the Home Office.

The total contributions expected to be made to the Local Government Pension Scheme by the Chief Constable in the year to 31 March 2020 are £17.1m. In addition, Strain on Fund Contributions may be required.

Total expected contributions for the Police Pension Schemes are £79.54m. This figure includes both the Chief Constable's contribution and the Top-Up Grant from the Home Office. In addition, the Chief Constable expects to pay £2.56m directly to beneficiaries of injury pensions.

Basis for estimating assets and liabilities

The liabilities are the estimated present value of the benefit payments due from the scheme in respect of the employer after the accounting reference date, valued using the projected unit method. Allowance is made for expected future increases in pay and pension and assumptions are made regarding mortality rates.

The Chief Constable employs a building block approach in determining the rate of return on Fund assets. Historical markets are studied and assets with higher volatility are assumed to generate higher returns consistent with widely accepted capital market principles. The assumed rate of return on each asset class is set out below. The overall expected rate of return on assets is then derived by aggregating the expected return for each asset class over the actual asset allocation for the Fund at 31 March 2019.

Both the Police Scheme and the Local Government Pension Scheme assets and liabilities have been assessed by Aon Hewitt Ltd. The principal assumptions used are as below:

Notes to the core financial statements

	31 March 2018	31 March 2019
LGPS	Each member was assumed to surrender pension on retirement, such that the total cash received (including any accrued lump sum from pre 2008 service) is 70% of the permitted maximum.	Each member was assumed to surrender pension on retirement, such that the total cash received (including any accrued lump sum from pre 2008 service) is 70% of the permitted maximum.

29.4	Women (LGPS)	27.8
25.1	Men (Police Pension Schemes)	23.9
27.8	Women (Police Pension Schemes)	26.3

Sensitivity of assumptions

The estimation of the defined benefit obligations is sensitive to the actuarial assumptions shown previously. The sensitivity analyses below have been determined based on reasonably possible changes to the assumptions occurring at the end of the reporting period and assumes for each change that the assumption analysed changes while all the other assumptions remain constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be interrelated.

The approximate impact of changing the key assumptions on the present value of the defined benefit obligation as at 31 March 2019 and the projected service cost for the year ending 31 March 2020 is set out below:-

Baseline:-

Police Schemes

Present Value of total obligation (excluding injury benefits) @ 31 March 2019 = £3,506.19M

Projected Service cost 2019/20 = £53.95M

Local Government Superannuation Scheme

Present Value of total obligation (funded scheme only) @ 31 March 2019 = £491.28M

Projected Service cost 2019/20 = £20.59M

	LGPS		Police Schemes	
	+ 0.1% p.a.	- 0.1% p.a.	+ 0.1% p.a.	- 0.1% p.a.
Adjustment to discount rate				
* Present value of total obligations (£M)	487.04	510.87	3,490.47	3,637.41
* % change in present value of total obligations	-2.4%	2.4%	-2.0%	2.1%
* Projected service cost (£M)	19.89	21.31	51.73	56.25
* % change in projected service cost	-3.4%	3.5%	-4.1%	4.3%
Rate of general increase in salaries				
* Present value of total obligations (£M)	501.51	496.14	3,580.18	3,546.29
* % change in present value of total obligations	0.5%	-0.5%	0.5%	-0.5%
* Projected service cost (£M)	20.59	20.59	54.20	53.70
* % change in projected service cost	0.0%	0.0%	0.5%	-0.5%
Rate of increase to pensions in payment and deferred pensions				
* Present value of total obligations (£M)	508.14	489.67	3,620.18	3,507.04
* % change in present value of total obligations	1.9%	-1.8%	1.6%	-1.6%
* Projected service cost (£M)	21.31	19.89	55.97	51.98
* % change in projected service cost	3.5%	-3.4%	3.7%	-3.7%
Adjustment to mortality age rating assumption				
	-1 year	+1 year	-1 year	+1 year
* Present value of total obligations (£M)	514.20	483.50	3,676.22	3,450.86
* % change in present value of total obligations	3.1%	-3.1%	3.2%	-3.2%
* Projected service cost (£M)	21.37	19.82	56.11	51.80
* % change in projected service cost	3.8%	-3.7%	4.0%	-4.0%

Notes to the core financial statements

The Police Pension Schemes have no assets to cover liabilities. The LGPS assets consist of the following categories, by proportion of the total assets held:

31 March 2018		31 March 2019 Quoted	31 March 2019 Unquoted	31 March 2019 Total %
%		%	%	Total %
62.6	Equities	54.0	6.4	60.4
23.7	Government bonds	22.6	0.1	22.7
7.0	Property	0.7	6.9	7.6
1.0	Corporate bonds	1.1	4.1	5.2
2.6	Cash	2.3	-	2.3
3.1	Other (hedge funds, currency holdings, futures, private equities)	0.1	1.7	1.8
100.0		80.8	19.2	100.0

20 Provisions, Contingent Liabilities and Contingent Assets

Provisions

Provisions are made where an event has taken place that gives the Commissioner a legal or constructive obligation that probably requires settlement by a transfer of economic benefits or service potential, and a reliable estimate can be made of the amount of the obligation. For instance, the Commissioner may be involved in a court case that could eventually result in the making of a settlement or the payment of compensation. As at 31 March 2019, no provisions are required. The same was true as at 31 March 2018.

Contingent Liabilities

A contingent liability arises where an event has taken place that gives the Commissioner a possible obligation whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the control of the Commissioner. Contingent liabilities also arise in circumstances where a provision would otherwise be made but either it is not probable that an outflow of resources will be required or the amount of the obligation cannot be measured reliably.

Contingent liabilities are not recognised in the Balance Sheet but disclosed in a note to the accounts.

At the balance sheet date there were a number of other potential liabilities in respect of events which are alleged to have happened in the past and where claims have been received from various third parties for damages and costs. Some of these relate to operational matters where liability has been alleged to have occurred in the past. These claims take some time to be settled but if they were to be settled all in the same year, insurance cover is in place to meet the costs of aggregate claims over a certain level; below this level (which is a combined £1.63m across the major categories of insurance) existing budgets or, exceptionally, the insurance reserve will cover the shortfall. However, it is

considered extremely unlikely that all outstanding claims will be found against the Chief Constable and would, additionally, not all be settled in the same year.

The Chief Constable, along with other Chief Constables and the Home Office, currently has 9 claims lodged against her with the Central London Employment Tribunal. The claims are in respect of alleged unlawful discrimination arising from the Transitional Provisions in the Police Pension Regulations 2015. Claims of unlawful discrimination have also been made in relation to the changes to the Judiciary and Firefighters Pension regulations and in 2016/17 these claims were heard in the Employment Tribunal.

Potentially other claims may be lodged in the future following judgements made in other parts of the country, including the calculation of overtime payments that may be due to officers who historically managed intelligence sources.

There are some claims which have been received for which the Chief Constable, through the Commissioner, is not insured and, again, the reserve or existing budgets would cover any awards of costs and damages. It is not certain that these or related events which might arise in the future would lead to rulings against the Commissioner or will lead to claims which are substantial. The insurance reserve to cover uninsured losses has remained at £1.47m (£1.47m at 31 March 2018).

Contingent Assets

A contingent asset arises where an event has taken place that gives the Commissioner a possible asset whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the control of the Commissioner.

Contingent assets are not recognised in the Balance Sheet but disclosed in a note to the accounts where it is probable that there will be an inflow of economic benefits or service potential.

Further to the implementation of the Estates Change Programme, a number of sites have been earmarked for disposal. Where such assets have been conditionally sold – i.e. subject to contract - deposits have been received. As these sales have yet to be completed, the income from deposits is not recognised as an asset as there is no contractual right to retain these sums until either the sale is completed or the prospective purchaser defaults on the contractual obligations. A contingent asset is recognised for these prospective sales and any deposits are recognised as receipts in advance

21 Events after the reporting period

The Statement of Accounts was authorised for issue by the Chief Finance Officer on 23 July 2019. Events taking place after this date are not reflected in the financial statements or notes. Where events taking place before this date provided information about conditions existing at 31 March 2019, the figures in the financial statements and notes have been adjusted in all material respects to reflect the impact of this information.

On 27 June 2019, the Supreme Court denied the Government's request to appeal the McCloud/Sargeant judgment that the transitional provisions introduced to the reformed judges and firefighters pension schemes in 2015 gave rise to unlawful age discrimination. The Government has stated its intention to engage fully with the Employment Tribunal to

Notes to the core financial statements

agree how the discrimination will be remedied for all the main public service pension schemes. The assumptions of the Government Actuary Department (GAD), have been used to update the past service cost in the Comprehensive Income and Expenditure Statement and the net pension liability on the balance sheet. This is offset by the same adjustment in the Pension Reserve.

22 Notes to the cash flow statement 2017/18 - Group

22a Operating Activities – Interest

The cash flows for operating activities include the following items:

2017/18 £'000		2018/19 £'000
(435)	Interest received	(357)
1,359	Interest paid	1,340
(251)	Dividends received	(333)
673		650

22b Adjustments to the net surplus or deficit on the provision of services for non-cash movements

2017/18 £'000		2018/19 £'000
(126,305)	Adjustments to net surplus or deficit on the provision of services for non-cash movements	(236,667)
	Analysis:-	
(113,130)	- Pensions	(214,100)
(9,209)	- Depreciation and impairment charged to CIES	(15,895)
(2,183)	- Revaluation adjustments	(53)
(2,251)	- Increase/(Decrease) in Debtors	(8,294)
1,565	- (Increase)/Decrease in Creditors	7,139
249	- Increase/(Decrease) in Inventories	(120)
145	- (Increase)/Decrease in Provisions	-
(1,491)	- Carrying amount of non-current assets and non-current assets held for sale, sold or de-recognised	(7,309)
	- Movement in the value of financial instruments	92
	- Other non-cash items charged to the net surplus or deficit on the provision of services	1,872
(126,305)		(236,667)

22c Adjustments to the net surplus or deficit on the provision of services for investing and financing activities

2017/18		2018/19
£'000		£'000
3,231	Adjustment for items included in the net surplus or deficit on the provision of services that are investing and financing activities	18,440
	Analysis:-	
2,072	- Proceeds from the sale of PP&E, investment property and intangible assets	7,068
1,159	- Capital grant (included within investing activities)	11,372
-	- Any other items for which the cash effects are investing or financing cash flows	-
3,231		18,440

22d Investing activities

2017/18		2018/19
£'000		£'000
	Cash outflows	
15,823	Purchase of property, plant and equipment, investment property and intangible assets	31,297
71,935	Purchase of short-term and long-term investments	57,687
-	Other payments for investing activities	-
	Cash inflows	
(2,072)	Proceeds from the sale of property, plant and equipment, investment property and intangible assets	(7,068)
(76,559)	Proceeds from short-term and long-term investments	(80,393)
(1,259)	Other receipts from investing activities	(1,219)
7,868	Net cash outflow/(inflow) from investing activities:	304

Note that the purchase of investments and proceeds from the same are those relating to financial instruments only. These net off to agree with the movement of these two items on the balance sheet.

22e Financing activities

2017/18 £'000		2018/19 £'000
	Cash outflows	
-	Cash payments for the reduction of the outstanding liabilities relating to finance leases	-
1,443	Repayment of short- and long-term borrowing	1,066
-	Other payments for financing activities - interest paid	-
	Cash inflows	
-	Cash receipts of short- and long-term borrowing	-
-	Other receipts from financing activities - interest received	-
1,443	Net cash outflow/(inflow) from financing activities:	1,066

23 Notes to the cash flow statement 2017/18 - PCC

23a Operating Activities – Interest

The cash flows for operating activities include the following items:

2017/18 £'000		2018/19 £'000
(435)	Interest received	(357)
1,359	Interest paid	1,340
(251)	Dividends received	(333)
673		650

24 Statement of Accounting Policies and Estimation Techniques

24.1 General Principles

The accounts have been prepared in accordance with the Code of Practice on Local Authority Accounting in the United Kingdom (2018). This code is recognised by statute as representing proper accounting practices. Any significant non-compliance is explained in the following notes. The accounts have been compiled by applying the most appropriate policies and estimation techniques, taking into account the accounting concepts of qualitative characteristics of financial information (i.e. relevance, reliability, comparability and

understandability), materiality and the pervasive accounting concepts (i.e. accruals, going concern and primacy of legislative requirements). All material income and expenditure including receipts, grants and employee costs have been accrued to the financial year to which they relate.

The accounting convention adopted in the Statement of Accounts is principally historical cost, modified by the revaluation of certain categories of non-current assets and financial instruments.

24.2 Accruals of Income and Expenditure

Activity is accounted for in the year that it takes place, not simply when cash payments are made or received. In particular:

- Revenue from the sale of goods is recognised when the Commissioner transfers the significant risks and rewards of ownership to the purchaser and it is probable that economic benefits or service potential associated with the transaction will flow to the Commissioner.
- Revenue from the provision of services is recognised when the Commissioner can measure reliably the percentage of completion of the transaction and it is probable that economic benefits or service potential associated with the transaction will flow to the Commissioner.
- Supplies are recorded as expenditure when they are consumed – where there is a gap between the date supplies are received and their consumption, they are carried as inventories on the Balance Sheet.
- Expenses in relation to services received (including services provided by employees) are recorded as expenditure when the services are received rather than when payments are made.
- Interest receivable on investments and payable on borrowings is accounted for respectively as income and expenditure on the basis of the effective interest rate for the relevant financial instrument rather than the cash flows fixed or determined by the contract.
- Where revenue and expenditure have been recognised but cash has not been received or paid, a debtor or creditor for the relevant amount is recorded in the Balance Sheet. Where debts may not be settled, the balance of debtors is written down and a charge made to revenue for the income that might not be collected.

Amounts below £10,000 are not routinely accrued at year end even if they meet the other conditions. This is due to the fact that they are not material in the scale of the Commissioner's overall income and expenditure. Where items of income or expenditure fall below this amount they may still be accrued in certain circumstances such as where they are subject to specific terms and conditions relating to a grant or where there is an element of cost recovery. Items of a similar nature which are individually below this £10,000 threshold may be aggregated if they could be said to have a similar material effect upon the reporting of a particular income, or expenditure head or cost centre.

Where items for which an accrual might be justified in ordinary circumstances, but where these are ongoing and are regular, such as quarterly or monthly payments for utilities, the Commissioner takes a pragmatic approach and ensures that four quarters or twelve months

are recorded in any one year where such payments or receipts are of relatively consistent amounts.

Debtors and creditors are recorded in the Balance Sheet at their fair value, which in both categories of financial instrument is the actual invoiced amount. No estimation techniques are used.

24.3 Prior Period Adjustments, Changes in Accounting Policies and Estimates and Errors

Prior period adjustments may arise as a result of a change in accounting policies or to correct a material error. Changes in accounting estimates are accounted for prospectively, i.e. in the current and future years affected by the change and do not give rise to a prior period adjustment.

Changes in accounting policies are only made when required by proper accounting practices or the change provides more reliable or relevant information about the effect of transactions, other events and conditions on the Commissioner's financial position or financial performance. Where a change is made, it is applied retrospectively (unless stated otherwise) by adjusting opening balances and comparative amounts for the prior period as if the new policy had always been applied.

Material errors discovered in prior period figures are corrected retrospectively by amending opening balances and comparative amounts for the prior period.

24.5 VAT

VAT payable is included as an expense only to the extent that it is not recoverable from Her Majesty's Revenue and Customs (HMRC). VAT receivable is excluded from income.

24.6 Trading Account

The Commissioner has one trading account in respect of venue hire for functions at the Training and Support Headquarters. The income and expenditure is now included within the net cost of services to give clearer reconciliations between the financial ledger and the statement of accounts. Any net surplus or deficit is credited or debited to an earmarked reserve at the year end. The modest level of turnover of this account (c £156,000) means that no separate disclosure is made.

24.7 Inventories

Stock accounts are maintained for uniforms, vehicle spares, fuel, computer consumables and computer equipment and these are valued at latest buying price. This is a departure from IAS 2, but these inventory items are, on the whole, fast moving and interchangeable; any differences between cost, net realisable value or latest buying price are not material to the accounts.

24.8 Rounding convention

Amounts reported in the financial statements may be rounded as appropriate. As most figures are reported in £'000's, figures will be rounded to the nearest £1,000. Where figures are shown in £'s, they will be rounded to the nearest £1. In some instances, the 'totals' in the tables which are presented are the rounded additions of unrounded figures and, therefore, may not be the strict sums of the figures presented in the text or tables. This will only give minor differences and the overall total is more accurate in such instances.

25 Critical Judgements in Applying Accounting Policies

In applying the accounting policies, the Commissioner has to make certain judgements about complex transactions or those involving uncertainty about future events. The critical judgements made in the Statement of Accounts are:

- All surplus properties have been reviewed and revalued in accordance with the IFRS 13 accounting standard, which came into use on 1 April 2015. None of these properties have been determined as being held for investment purposes;
- An assessment of the Commissioner's interests in companies and other entities has been carried out in accordance with the Code of Practice to determine whether any group accounting relationships exist. This review sought to determine whether there was any control over another entity as possibly demonstrated through ownership, such as shareholding in an entity or representation on an entity's board of directors. The PCC is involved in joint working relationships with a number of other police forces, Hampshire County Council and the Hampshire Fire and Rescue Service in the provision of operational police activity or, with the latter two bodies, support services. None of these working arrangements and collaborations was deemed to require the inclusion of such in the group accounts. Rather, the relevant transactions equating to the Commissioner's own expenditure in the partnership were included as appropriate. This position remained unchanged in 2018/19. Further information is disclosed in note 12.

In these accounts, we continue to take notice of the following factors:-

- The Chief Constable is classed as a local authority, allowing her to benefit from the statutory overrides contained in the Accounts and Audit Regulations 2015;
- Clearer guidance on the accounting arrangements from CIPFA in the form of Local Authority Accounting Panel (LAAP) Bulletins and other communiqués now in place. This guidance aims to draw a distinction between both the form and substance of the arrangements between the two parties, the nature of control being a balance between strategic and operational control and the fact that, whilst the Commissioner can remove the Chief Constable post holder, he cannot remove the role itself;
- A Stage 2 transfer scheme was approved by the Home Office Police Minister in 2014, with an agreed commencement date of 1 May 2014. Rather than make any fundamental change to the nature of the interrelationship between the Police and Crime Commissioner and the Chief Constable, as separate 'corporations sole' under a 'group' accounting arrangement (with the PCC having primacy), the Stage 2 transfer merely formalised certain aspects such as the having the majority of officers and staff under the command and control of the Chief Constable and the assets being owned exclusively by the Commissioner.

Notes to the core financial statements

As a result of the above, we have reviewed the various aspects of the relationship between the Commissioner and the Chief Constable in order to determine how to account for these in the 2018/19 Statement of Accounts:-

Consideration	Accounting determination		Reasoning
	PCC	CC	
Expenditure	✓	✓	CC to record all expenditure on staff, buildings, supplies and services, vehicles etc. which is employed in the delivery of operational policing except those directly attributable to the activity and functions of the PCC
Employees – IAS19		✓	As most members of staff are under the day to day operational command of the CC, the IAS 19 (employment benefits, including pensions and the adjustments in respect of accrued employee benefits) charges/credits are attributed to the CC. The net IAS19 adjustments are subject to statutory overrides in the Movement in Reserves Statement.
Charges for assets – i.e. depreciation and impairment	✓		Whilst the CC has day to day operational control of most assets such as buildings and vehicles, the PCC manages the estate and the strategic direction of the use of that estate. Additionally, he provides resources for the purchase of new assets, uses the proceeds from the sale of assets to fund future development or to pay down long-term debt and is responsible for the long- term decisions relating to the financing of his capital expenditure.
Income – General Grants and Taxation	✓		The PCC sets the precept and is the only recipient of general grants. The PCC receives the income which is put into the Police Fund.
Income – specific grants, service income (events, statutory charges etc.) and other contributions and donations	✓	✓	This is recorded in the accounts of whichever party the income is directly attributable or whose activities it relates to.
Working capital – debtors, creditors, provisions	✓	✓	The PCC settles all of the outstanding cash payments through his overall control of the resources available for policing in the county. Debtors and creditors are recorded in the CIES of the Commissioner and the Chief Constable to show the cost of their activities, but the balance sheet entries in respect of these belong to the PCC.
Reserves- General fund reserve, earmarked general fund reserves, other usable reserves	✓		As the PCC controls and owns the Police Fund, he owns the associated reserves.

Consideration	Accounting determination		Reasoning
	PCC	CC	
Reserves - unusable	✓	✓	These are accounting reserves, required for different reasons most of which relate to the statutory overrides and accounting for assets. Most of these are attributable to the PCC, with the exceptions being those relating to the IAS19 entries in the accounts – i.e. the pensions reserve and the accumulated absences account – as these follow the staff to which they relate (i.e. and which are recorded in the CC’s Comprehensive Income and Expenditure Statement).

26 Assumptions Made About the Future and Other Major Sources of Estimation Uncertainty

The Statement of Accounts contains estimated figures that are based on assumptions made by the Commissioner about the future or that are otherwise uncertain. Estimates are made taking into account historical experience, current trends and other relevant factors. However, because balances cannot be determined with certainty, actual results could be different from the assumptions and estimates.

The items in the Commissioner’s Balance Sheet at 31 March 2019 for which there is a risk of material adjustment in the forthcoming financial year are as follows:

Item	Uncertainties	Effect if Actual Results Differ from Assumptions
Pensions Liability	Estimation of net liability to pay pensions depends upon a number of complex judgements in relation to the discount rate used, the rate at which salaries are projected to increase, changes in retirement ages, mortality rates and expected returns on pension fund assets. The Chief Constable receives annual forecasts and regular reviews of all of its assets and liabilities from an independent actuary to ensure that the accounts contain realistic estimates of the overall impact of these pensions’ liabilities.	<p>The effects of the net pensions’ liability of changes in individual assumptions can be measured. For instance, a 0.1% increase in the discount rate assumptions would result in a decrease in the Police Pension Schemes liabilities of 2.0% and a decrease in the Local Government Superannuation Scheme liabilities of 2.4%.</p> <p>However, the assumptions interact in complex ways. More details are provided in the IAS19 disclosures at note 19.</p>

Item	Uncertainties	Effect if Actual Results Differ from Assumptions
Property, Plant and Equipment Valuations	The Commissioner requests valuations of PPE on a 5 year rolling programme, unless events indicate that a valuation is required ahead of the next planned valuations. Valuations are undertaken by qualified valuers within Hampshire County Council's Property department in accordance with the Royal Institute of Chartered Surveyors (RICS) professional standards using recognised measurement techniques.	A change in value of 1% in the value of property not valued in year would result in an increase/decrease of £2m. This does not impact the usable reserves available to the authority.

27 Accounting Standards that have been issued but have not yet been adopted

The Code of Practice on Local Authority Accounting in the United Kingdom (the Code) requires the disclosure of information relating to the expected impact of an accounting change that will be required by a new standard that has been issued but not yet adopted.

The additional disclosures that will be required in the 2019/20 financial statements in respect of accounting changes introduced in the 2019/20 Code are:

- Amendments to IAS 40 Investment Property: Transfers of Investment Property – This sets out further details about when property can be classified as investment property. The impact is not expected to be material.
- IFRIC 22 Foreign Currency Transactions and Advance Consideration – This specifies how payments in foreign currencies made in advance of receiving goods or services should be accounted for. The impact is not expected to be material.
- IFRIC 23 Uncertainty over Income Tax Treatments – This guides how income tax should be accounted for in situations of uncertainty. The impact is not expected to be material.
- Amendments to IFRS 9 Financial Instruments: Prepayment Features with Negative Compensation – This clarifies that amortised cost should be used where prepayments are substantially lower than the unpaid principal and interest. The impact is not expected to be material.
- The Annual Improvements to IFRS Standards 2014 - 2016 Cycle also introduces two changes, which are not expected to be material:

- IFRS 12 Disclosure of Interests in Other Entities: Clarification of the Scope of the Standard
- IAS 28 Investments in Associates and Joint Ventures: Measuring an Associate or Joint Venture at Fair Value

Notes to the Police Pension Fund Account

	- other current liabilities	
-		-

The Pension Fund financial statements do not take account of any liabilities to pay pensions and other benefits after the period end.

Most payments and employer contributions in respect of the police pension schemes are reported in the Police Pension Fund Account. Other pension costs are charged to the Comprehensive Income and Expenditure Statement. This includes the on-going costs and commuted lump sums in respect of officers who are awarded injury pensions, which totalled £2.54m in 2018/19. For officers who retire on the grounds of ill-health, the employer makes a contribution from the Comprehensive Income and Expenditure Account to the Police Pension Fund Account. This charge is the equivalent to two years' pensionable pay and is a one off credit to the account. All on-going payments are met by the Police Pension Fund.

Debtors and creditors of the Police Pension Fund Account are included within the main financial statements of the Commissioner as a result of the reimbursement of the top up grant and the cash being transferred between the Commissioner and Pension Fund bank accounts on a regular basis.

The Scheme Manager of the Police Pension Fund is the Chief Constable. The administration of the fund is carried out by the County Council as part of the joint working arrangements. The administrator makes all payments to existing and new pensioners and maintains the necessary records of entitlement. The Commissioner provides the funds to make payments to pensioners and for transfers out of the scheme. The Commissioner's budget and current serving officers make contributions into the fund and at present 100% of any shortfall between this income and the payments made is met by a grant from the Home Office.

A Police Pensions Board was introduced in April 2015 in accordance with the Public Services Pensions Act 2013. The Board is chaired by the Chief Constable's Chief Finance Officer and has equal membership from the employer and employee side.

The Police Pension Fund makes payments to officers who retire from the scheme whilst in the employment of the Chief Constable or who have previously worked for the Chief Constable and who have a deferred pension. This is based on the length of service and pensionable pay at the point of retirement. Officers may choose to commute part of their benefit into a lump sum and to receive a reduced on-going pension. Benefits are also paid to dependents when an officer dies in service or after retirement.

Employees make the following contributions:-

- 1987 Scheme 14.25%-15.05%
- 2006 Scheme 11.00%-12.75%
- 2015 Scheme 12.44%-13.78%

The employer made a contribution of 24.2% of pensionable salary and benefits in 2018/19, which is made up of an actuarially-assessed contribution of 21.3% plus an additional employer contribution of 2.9%.

The employee's contribution is set nationally by the Home Office and is subject to a triennial revaluation by the Government Actuary's Department (GAD).

Notes to the Police Pension Fund Account

The Police Pension Fund Account has been prepared in accordance with the extant Police Pensions Regulations and the accounting policies detailed in Note 24.

Note 19 shows further detail of the IAS19 entries and the pension schemes.

Annual Governance Statement for Police and Crime Commissioner

1. Scope of Responsibility

- 1.1 The Police and Crime Commissioner is responsible for ensuring that:
- business is conducted in accordance with the law and to proper standards.
 - public money is safeguarded and properly accounted for, and used economically, efficiently and effectively.
 - he secures continuous improvements in the way in which functions are exercised, having regard to a combination of efficiency, effectiveness and economy.
 - there is a sound system of internal control which facilitates the effective exercise of the Police and Crime Commissioner's functions and which include arrangements for the management of risk.
- 1.2 This Statement explains how the Police and Crime Commissioner has complied with the Code of Practice on Local Authority Accounting in the United Kingdom 2018/19 and meets with the requirements of the Accounts and Audit (England) Regulations in relation to the publication of an Annual Governance Statement.

2. The purpose of Corporate Governance

- 2.1 The governance framework comprises the systems, processes, cultures and values by which the Office of the Police and Crime Commissioner is directed and controlled and its activities through which it accounts to, engages with and leads the community. It enables the Police and Crime Commissioner to monitor the achievements of the Police and Crime Plan and to consider whether they have led to the delivery of appropriate, cost effective services.
- 2.2 The system of internal control is a significant part of the framework and is designed to manage risk to a reasonable level. It cannot eliminate all risk of failure to achieve policies, aims and objectives and can therefore only provide reasonable and not absolute assurance of effectiveness. The system of internal control is based on an ongoing process designed to identify and prioritise the risk to the achievement of the Police and Crime Commissioner's policies aims and objectives, to evaluate the likelihood of those risks being realised and the impact should they be realised, and to manage them efficiently, effectively and economically.
- 2.3 The governance framework has been in place for the year ending 31 March 2019 and up to the date of approval of the statement of accounts.
- 2.4 The Police and Crime Commissioner has approved and adopted a Scheme of Corporate Governance, which is consistent with the principles of the CIPFA/SOLACE Framework 'Delivering Good Governance in Local Government'. The Scheme of Corporate Governance is reviewed at the Joint Audit Committee. Agendas and minutes of the Joint Audit Committee are published on the website.
- 2.5 The CIPFA/SOLACE framework identifies seven principles of good governance:
- Behaving with integrity, demonstrating strong commitment to ethical values, and respecting the rule of law
 - Ensuring openness and comprehensive stakeholder engagement
 - Defining outcomes in terms of sustainable economic, social and environmental benefits

- Determining the interventions necessary to optimise the achievement of the intended outcomes
- Developing the entity's capacity, including the capability of its leadership and the individuals within it
- Managing risks and performance through robust internal control and strong public financial management
- Implementing good practices in transparency, reporting and audit to deliver effective accountability.

2.6 The first two principles underpin the whole 2016 framework and are implicit in the remaining five principles.

3. Core Principles of good governance

3.1 Behaving with Integrity, demonstrating strong commitment to ethical values, and respecting the rule of law

3.1.1 The Office of the Police and Crime Commissioner operates in an open and transparent way and the Police and Crime Commissioner sets the tone for the organisation by creating a climate and culture of openness, support, and respect.

3.1.2 The Police and Crime Commissioner is committed to the highest ethical standards and has adopted a governance framework to re-enforce this philosophy as well as procedures to investigate any issues should the need arise. The framework, policies and procedures are set out in the Police and Crime Commissioner's Scheme of Corporate Governance. The Scheme of Corporate Governance demonstrates a comprehensive commitment on the part of the Police and Crime Commissioner to integrity, ethical values and the rule of law.

3.1.3 The key governance legal powers and responsibilities within the Office of the Police and Crime Commissioner are set out in legislation and statutory guidance (especially the Police Reform and Social Responsibility Act 2011, Policing Protocol Order 2011, Revised Financial Management Code of Practice 2018 and Strategic Policing Requirement), the Scheme of Delegation, Financial Regulations and Contract Standing Orders. These are referenced in the Scheme of Corporate Governance.

3.1.4 To support him in his role as the Monitoring Officer (MO), the Chief Executive has appointed a legally qualified Deputy MO. The deputy MO is an external appointment, whose host employer is Hampshire County Council. The deputy MO provides valuable additional oversight for the Chief Executive and the Police and Crime Commissioner on the Governance Framework.

3.2 Ensuring openness and comprehensive stakeholder engagement.

3.2.1 The Police and Crime Commissioner has produced the Police and Crime Plan. The Plan sets out the Police and Crime Commissioner's Vision, Priorities and Mission. The clear strategic aims of which are communicated on the Police and Crime Commissioner's website and through various communications. This provides an operating model for business planning. The mission for the Police and Crime Commissioner is:

- 3.2.2 The Police and Crime Commissioner has a clear governance framework for corporate decision making. The Police and Crime Commissioner's decisions have clear guidance and protocols on decision making and templates for decision reports. All decisions are published, albeit that consideration is given to redacting some elements where this is necessary and proportionate.
- 3.2.3 Public consultation is undertaken on an ongoing basis to inform decision making. Targeted consultation takes place for specific decisions such as the public consultation on the council tax precept. The Police and Crime Commissioner hosts public events and attends community events to inform and consult the public. The Police and Crime Commissioner is scrutinised by the Police and Crime Panel which consists of members from local authorities and independent members who also consult their local communities and offer feedback to the Police and Crime Commissioner.
- 3.3 Defining outcomes in terms of sustainable economic, social and environmental benefits.**
- 3.3.1 The strategic aims set out in the Police and Crime Plan underpin the Police and Crime Commissioner's overarching ambitions for delivering positive economic, social and environmental outcomes for Hampshire and the Isle of Wight. Delivery of the Plan is monitored internally within the Office of the Police and Crime Commissioner and also through the scrutinising function of the Police and Crime Panel. Ultimately the Police and Crime Commissioner is held to account by the electorate.
- 3.4 Determining the interventions necessary to optimise the achievement of the intended outcomes.**
- 3.4.1 Clear guidance and protocols exist for decision making and the involvement of the Deputy Monitoring Officer and the CFO in all significant decisions of the Police and Crime Commissioner ensures that decisions are only made after relevant options have been weighed and associated risks assessed from a legal and financial perspective. Details of the guidance and protocols are set out in the Scheme of Corporate Governance.

- 3.4.2 The budget setting process is well established. The budget is set by the Police and Crime Commissioner after proposals on the council tax precept are consulted upon with the public and scrutinised in public by the Police and Crime Panel. The budget is set in the context of achieving the Police and Crime Plan.
- 3.4.3 A medium term financial strategy, capital programme and reserves strategy is updated each year together with relevant resource forecasts and takes full account of the changing regulatory, environmental, demographic, economic and demand factors and funding that impact on the financial environment in which the Police and Crime Commissioner operates.
- 3.4.4 Risks associated with the achievement of intended outcomes are detailed in Risk Registers held at strategic and project level. These evaluate the effectiveness of existing control measures as well as identifying proposed mitigation.
- 3.5 Developing the entity's capacity including the capability of its leadership and the individuals within it**
- 3.5.1 The Police and Crime Commissioner places a significant value of the capability of leadership. Each individual has a Personal Development Review on a regular basis with their line manager to ensure that any skill gaps are addressed and to discuss opportunities for development.
- 3.5.2 The Police and Crime Commissioner regularly reviews the structure of the workforce against the needs of the service in the context of its capacity and capability requirements. This then informs a range of strategies, for example; recruitment, retention and people development in order to provide effective leadership and deploy appropriate resources to meet the needs of services.
- 3.5.3 There is an emphasis on the need for high performance, of which resilience and continuous development play key parts, both of which factor in the regular discussions between managers and staff.
- 3.6 Managing risks and performance through robust internal control and strong public financial management.**
- 3.6.1 The Police and Crime Commissioner operates a robust Risk Management Strategy, with reports to the Joint Audit Committee. The Joint Audit Committee has provided significant guidance and advice for the enhancement of the risk management arrangements.
- 3.6.2 The Internal Audit Plan provides the mechanism through which the Chief Executive and CFO agree in consultation with the Chief Internal Auditor the most appropriate use of internal audit resources.
- 3.6.3 The Internal Audit Plan was developed to operate at a strategic level providing a value adding, and proportionate, level of assurance aligned to the Police and Crime Commissioner's key risks and objectives. This includes a periodic review of the Police and Crime Commissioner's risk management processes.
- 3.6.4 The Audit Plan remains fluid to ensure Internal Audit's ability to react to the changing needs of the Police and Crime Commissioner.
- 3.6.5 The Internal Audit plan incorporates provision for both proactive and reactive counter fraud and corruption work, which is underpinned by an embedded Counter Fraud & Corruption Strategy and Policy and Anti Bribery Act Policy.

- 3.6.6 The delivery of the Internal Audit plan enables the Chief Internal Auditor to provide an annual report providing an opinion on the overall adequacy and effectiveness of the framework of governance, risk management and control which is reported to the Joint Audit Committee and Police and Crime Commissioner.
- 3.6.7 Specifically for IT and Information Management, which is provided in collaboration with and by Thames Valley Constabulary (TVP), the Joint Audit Committee have access to and receive regular audit reports from the TVP Internal Audit team, as well as an annual internal audit opinion on the overall adequacy and effectiveness of the framework of governance, risk management and control. The JAC are also sighted on the proposed annual IT audit plan. This overall part of the governance process has been strengthened over the course of 2018/19.
- 3.6.8 The outcomes and assurance levels provided by TVP on individual audits, together with the annual opinion, are taken into account by the Chief Internal Auditor in providing the opinion on the overall adequacy and effectiveness of the framework of governance, risk management and control.
- 3.6.9 The Joint Audit Committee is well established and provides independent advice to the Police and Crime Commissioner and Chief Constable. Members of the Joint Audit Committee have no executive responsibility for the management of the organisation, thus ensuring that they are sufficiently independent to scrutinise and challenge matters brought to their attention.
- 3.6.10 The Joint Audit Committee has a clear and agreed 'Terms of Reference' providing an effective source of scrutiny, challenge and assurance regarding the arrangements for managing risk and maintaining an effective control environment.
- 3.6.11 The Police and Crime Commissioner has a well-developed and effective scrutiny function via the Police and Crime Panel. The Police and Crime Panel publicly hold the Commissioner to account for his performance and formally provide a role in scrutinising and commenting upon the Commissioner's precept proposals, including a power to veto the proposed precept.
- 3.6.12 A key part of the Commissioner's role is to hold the Chief Constable to account for both operational performance and financial management; the Commissioner ensures that this is achieved both in public via the regular COMPASS meetings, a forum in which the Commissioner will publicly hold the Chief Constable to account on particular issues. In addition the Commissioner meets regularly in private with the Chief Constable to discuss performance, and each year provides a formal assessment of the Chief Constables performance.
- 3.6.13 The Police and Crime Commissioner has strong financial management arrangements at both the strategic and operational level and consistently obtains unqualified opinions for its annual accounts and value for money assessment. The Section 151 Officer is a member of the leadership team and all formal financial decision making has the benefit of the advice and review of the Chief Financial Officer or their representative.
- 3.6.14 Key financial regulations and financial strategies form an important part of the Corporate Governance Framework together with effective risk based financial and performance reporting.
- 3.6.15 Financial management in key risk areas across the Police and Crime Commissioner focusses on activity and performance management alongside the budget

management processes and the financial management framework is appropriately advised and supported by the Finance function.

3.7 Implementing good practices in transparency reporting and audit to deliver effective accountability.

- 3.7.1 The decision making guidance, protocols and templates referred to in the Scheme of Corporate Governance and the involvement of senior officers, legal officers and finance officers ensures that public reports are written in a clear and accessible way with sufficient information to enable members of the public to formulate informed opinions on the matters for decision.
- 3.7.2 The performance framework provides a transparent cycle of reporting on core performance metrics. Performance information is published online and is easily accessible to staff, partners and the public.
- 3.7.3 The 'Internal Audit Charter' is presented annually for approval by the Joint Audit Committee. The Charter makes provision that where it is considered necessary to the proper discharge of the Internal Audit function, the Chief Internal Auditor has direct access to the Joint Audit Committee.
- 3.7.4 The ongoing work of internal audit is presented through a quarterly progress report to the Joint Audit Committee providing an overview of service performance; delivery against the plan; and progress made by the organisation in the implementation of management actions agreed to mitigate risks identified through internal audit work.
- 3.7.5 Representatives of External Audit routinely attend Joint Audit Committee meetings and present all External Audit reports. Any recommendations for corrective action detailed within External Audit reports are highlighted to the Joint Audit Committee who will track through to implementation. This is achieved through the clear and concise nature of the minutes to each meeting couple with the inclusion of any overdue recommendations within the internal audit progress report.
- 3.7.6 The Internal Audit plan includes provision to review the Police and Crime Commissioner's approach to governance, risk and controls for partnership working. Such reviews are formally reported through the Joint Audit Committee with any significant issues highlighted accordingly.
- 3.7.7 Where appropriate Internal Audit will gain assurances from third parties to contribute to their overall assurance opinion.

4 Obtain assurances on the effectiveness of key controls

- 4.1 Key controls relating to risks, internal control (including financial management), and governance processes are identified by managers as part of the governance framework and recorded on risk registers. These are consolidated into the strategic risk register at a corporate level.
- 4.2 Internal Audit, as part of its planned review of internal controls regularly evaluates the key controls to determine their adequacy and also carries out tests to confirm the level of compliance. Together the results of each review enable an audit opinion on effectiveness to be provided to management, and any actions for improvement to be agreed.
- 4.3 External sources of assurance include the annual opinion and value for money conclusion by external auditors, and any statutory inspections, for example, the Health and Safety Executive, and other external assessments e.g. by the

Information Commissioners Office. These reports are subject to consideration by senior management and appropriate responses are agreed to any recommendations for improvements. The reports are normally approved in public and published.

- 4.4 In conjunction with specialist Internal Audit support, the Police and Crime Commissioner has also applied the CIPFA Counter Fraud self-assessment tool to identify potential opportunities for enhancement.

5 Evaluate assurances and identify gaps in control/assurance

- 5.1 The Police and Crime Commissioner has made adequate arrangements to identify, receive and evaluate reports from the defined internal and external assurance providers to identify weaknesses in controls.
- 5.2 Each team within the Police and Crime Commissioner has assessed risk and reported significant risks via the governance framework for inclusion within the Strategic Risk Register. The Internal Audit plan and reports have assisted the assessment of risk in business areas that are higher risk.
- 5.3 The Police and Crime Commissioner has responsibility for conducting, at least annually, a review of the effectiveness of its governance framework including the system of internal control. The review of effectiveness is informed by the work of the officers within the Police and Crime Commissioner who have responsibility for the development and maintenance of the governance environment, the Chief Internal Auditor's annual report, and also by comments made by the external auditors and other review agencies and inspectorates.
- 5.4 In providing the annual report, the Chief Internal Auditor takes account of the reports from the internal and external assurance providers which have also been reported to the Joint Audit Committee. This Annual Governance Statement sets out the Police and Crime Commissioner's arrangements for receiving reports and identifying weaknesses in internal control.
- 5.5 In line with the Internal Audit Charter, the key elements of the corporate governance framework are risk assessed and reviewed periodically by Internal Audit.

6 Action plan to address weaknesses and ensure continuous improvement of the system of corporate governance

- 6.1 Following the enactment of the Data Protection Act 2018 and the General Data Protection Regulation, the Police and Crime Commissioner agreed to a voluntary audit by the Information Commissioner's Office of its processing of personal data and the extent to which it is complying with data protection legislation.
- 6.2 The audit focused on two areas of scope - governance and accountability, and data sharing. The audit was conducted following the Information Commissioner's data protection audit methodology. The key elements of this are a desk-based review of selected policies and procedures, on-site visits including interviews with selected staff, and an inspection of selected records. Where weaknesses were identified recommendations have been made, primarily around enhancing existing processes to facilitate compliance with data protection legislation.
- 6.3 During 2019/20, the Police and Crime Commissioner will implement the recommendations of the Information Commissioner's Office, which will lead to a strengthening of the mechanisms in place to manage personal data and provide an ongoing programme to maintain the required level of compliance with legislation.

7 There is a robust mechanism to ensure that an appropriate action plan is agreed to address identified control weaknesses and is implemented and monitored

In response to the Action Plan identified in the 2017/18 Annual Governance Statement:

- 7.1 Sufficient funding and savings were delivered in 2018/19 to balance the budget without causing significant additional risk to performance. Further work will continue to balance budgets going forward.
- 7.2 The Joint Audit Committee's terms of reference and arrangements for review of effectiveness were agreed.

Declaration

We have been advised on the implications of the result of the review of the effectiveness of the governance framework by the Joint Audit Committee and that the arrangements continue to be regarded as fit for purpose in accordance with the governance framework. The areas already addressed and those to be specifically addressed with new actions planned are set out in this Statement.

We propose over the coming year to take steps to address the above matters to further enhance our governance arrangements. We are satisfied that these steps will address the need for improvements that were identified in our review of effectiveness and will monitor their implementation and operation as part of our next annual review.

AUDITOR'S REPORT TO A POLICE AND CRIME COMMISSIONER – GROUP ACCOUNTS

INDEPENDENT AUDITOR'S REPORT TO THE POLICE AND CRIME COMMISSIONER FOR HAMPSHIRE

Opinion

We have audited the financial statements of the Police and Crime Commissioner for Hampshire for the year ended 31 March 2019 under the Local Audit and Accountability Act 2014. The financial statements comprise the:

- Police and Crime Commissioner for Hampshire and Group Movement in Reserves Statement;
- Police and Crime Commissioner for Hampshire and Group Comprehensive Income and Expenditure Statement;
- Police and Crime Commissioner for Hampshire and Group Balance Sheet;
- Police and Crime Commissioner for Hampshire and Group Cash Flow Statement;
- Police and Crime Commissioner for Hampshire Pension Fund Account Statements; and
- related notes 1 to 27.

The financial reporting framework that has been applied in their preparation is applicable law and the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2018/19.

In our opinion the financial statements:

- give a true and fair view of the financial position of the Police and Crime Commissioner for Hampshire and Group as at 31 March 2019 and of its expenditure and income for the year then ended; and
- have been prepared properly in accordance with the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2018/19.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report below. We are independent of the Police and Crime Commissioner for Hampshire and Group in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard and the Comptroller and Auditor General's (C&AG) AGN01, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

We have nothing to report in respect of the following matters in relation to which the ISAs (UK) require us to report to you where:

- the Chief Finance Officer's use of the going concern basis of accounting in the preparation of the financial statements is not appropriate; or
- the Chief Finance Officer has not disclosed in the financial statements any identified material uncertainties that may cast significant doubt about the Authority's ability to continue to adopt the going concern basis of accounting for a period of at least twelve months from the date when the financial statements are authorised for issue.

Other information

The other information comprises the information included in the Statement of Accounts, other than the financial statements and our auditor's report thereon. The Chief Finance Officer is responsible for the other information.

Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in this report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of the other information, we are required to report that fact.

We have nothing to report in this regard.

Opinion on other matters prescribed by the Local Audit and Accountability Act 2014

Arrangements to secure economy, efficiency and effectiveness in the use of resources

In our opinion, based on the work undertaken in the course of the audit, having regard to the guidance issued by the Comptroller and Auditor General (C&AG) in November 2017, we are satisfied that, in all significant respects, the Police and Crime Commissioner for Hampshire put in place proper arrangements to secure economy, efficiency and effectiveness in its use of resources for the year ended 31 March 2019.

Matters on which we report by exception

We report to you if:

- in our opinion the annual governance statement is misleading or inconsistent with other information forthcoming from the audit or our knowledge of the entity;
- we issue a report in the public interest under section 24 of the Local Audit and Accountability Act 2014;
- we make written recommendations to the audited body under Section 24 of the Local Audit and Accountability Act 2014;

- we make an application to the court for a declaration that an item of account is contrary to law under Section 28 of the Local Audit and Accountability Act 2014;
- we issue an advisory notice under Section 29 of the Local Audit and Accountability Act 2014; or
- we make an application for judicial review under Section 31 of the Local Audit and Accountability Act 2014.

We have nothing to report in these respects

Responsibility of the Chief Finance Officer

As explained more fully in the Statement of Responsibilities for the Accounts set out on page 15, the Chief Finance Officer is responsible for the preparation of the Statement of Accounts, which includes the financial statements, in accordance with proper practices as set out in the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2018/19, and for being satisfied that they give a true and fair view.

In preparing the financial statements, the Chief Finance Officer is responsible for assessing the Police and Crime Commissioner's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Police and Crime Commissioner either intends to cease operations, or have no realistic alternative but to do so.

The Police and Crime Commissioner is responsible for putting in place proper arrangements to secure economy, efficiency and effectiveness in its use of resources, to ensure proper stewardship and governance, and to review regularly the adequacy and effectiveness of these arrangements.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at <https://www.frc.org.uk/auditorsresponsibilities>. This description forms part of our auditor's report.

Scope of the review of arrangements for securing economy, efficiency and effectiveness in the use of resources

We have undertaken our review in accordance with the Code of Audit Practice, having regard to the guidance on the specified criterion issued by the Comptroller and Auditor General (C&AG) in November 2017, as to whether the Police and Crime Commissioner for Hampshire had proper arrangements to ensure it took properly informed decisions and

deployed resources to achieve planned and sustainable outcomes for taxpayers and local people. The Comptroller and Auditor General determined this criterion as that necessary for us to consider under the Code of Audit Practice in satisfying ourselves whether the Police and Crime Commissioner for Hampshire put in place proper arrangements for securing economy, efficiency and effectiveness in its use of resources for the year ended 31 March 2019.

We planned our work in accordance with the Code of Audit Practice. Based on our risk assessment, we undertook such work as we considered necessary to form a view on whether, in all significant respects, the PCC had put in place proper arrangements to secure economy, efficiency and effectiveness in its use of resources.

We are required under Section 20(1)(c) of the Local Audit and Accountability Act 2014 to satisfy ourselves that the Police and Crime Commissioner has made proper arrangements for securing economy, efficiency and effectiveness in its use of resources. The Code of Audit Practice issued by the National Audit Office (NAO) requires us to report to you our conclusion relating to proper arrangements.

We report if significant matters have come to our attention which prevent us from concluding that the Police and Crime Commissioner has put in place proper arrangements for securing economy, efficiency and effectiveness in its use of resources. We are not required to consider, nor have we considered, whether all aspects of the Authority's arrangements for securing economy, efficiency and effectiveness in its use of resources are operating effectively.

Certificate

We cannot formally conclude the audit and issue an audit certificate until we have completed the work necessary to issue our assurance statement in respect of the Police and Crime Commissioner's Whole of Government Accounts consolidation pack. We are satisfied that this work does not have a material effect on the financial statements or on our value for money conclusion.

Use of our report

This report is made solely to Police and Crime Commissioner for Hampshire in accordance with Part 5 of the Local Audit and Accountability Act 2014 and for no other purpose, as set out in paragraph 43 of the Statement of Responsibilities of Auditors and Audited Bodies published by Public Sector Audit Appointments Limited. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Police and Crime Commissioner for Hampshire for our audit work, for this report, or for the opinions we have formed.

The maintenance and integrity of the Police and Crime Commissioner for Hampshire's web site is the responsibility of the directors; the work carried out by the auditors does not involve consideration of these matters and, accordingly, the auditors accept no responsibility for any changes that may have occurred to the financial statements since they were initially presented on the web site.

Legislation in the United Kingdom governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions

Agency Services

Services which are performed by or for another Commissioner or public body where the agent is reimbursed for the cost of work done.

Amortisation

The process of writing down the cost of an asset or liability through depreciation or repayment of principle over a suitable period of time.

Capital Adjustment Account

A Balance Sheet reserve which reflects the net surplus of resources set aside to finance capital expenditure and the depreciation, impairment and write-off of the historical cost of property, plant and equipment assets.

Capital Expenditure

Expenditure on the provision and improvement of assets such as property, plant and equipment and vehicles and major items of equipment providing benefit to the Commissioner over a life of more than one year.

Capital Receipts

Money obtained on the sale of a capital asset. Capital receipts can be used to finance new capital expenditure or to repay loan debt within rules set down by the government, but they cannot be used to finance revenue expenditure.

Chief Financial Officer (CFO)

The Commissioner and the Chief Constable both have a legal obligation under the Local Government Finance Act 1988 to appoint a person to be responsible for the proper administration of their financial affairs. This person is the Chief Financial Officer (CFO).

Collection Fund Adjustment Account

A Balance Sheet account which records the difference between the income included in the Income and Expenditure Account and the amount required by regulation to be credited to the General Fund. The Commissioner includes a proportionate share of Council Tax debtors and creditors due to the billing authority, which is deemed to be acting as an agent of the major preceptors, including the Police and Crime Commissioner.

Credit Arrangements

An arrangement other than borrowing where the use of a capital asset is obtained and paid for over a period of more than one year. The main types of credit arrangements are leases of property, plant and equipment.

Creditors

Individuals or organisations to whom the Commissioner owes money at the end of the financial year for work done, goods received or services rendered but for which payment has not been made at 31 March.

Current service costs

The increase in the present value of pension liabilities expected to arise from employee service in the current period.

Debtors

Individuals or organisations who owe the Commissioner money.

Depreciation

Depreciation represents the consumption of an asset due to deterioration. The value is included within the income and expenditure account as a cost of providing services but as there is no cashflow impact on the general reserve, it is taken out in the movement in reserves statement.

Expected credit loss

An estimate of the losses an authority expects it will incur from financial instruments.

Expected loss allowance

Some debts are unlikely to be recovered because something has happened since the debt was raised. An assessment of the reduction in recoverable debt is made both individually (for individually significant debts) and collectively.

Fair value

The amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's-length transaction.

Financial Instruments Adjustment Account

A Balance Sheet account which records the adjustments made to the value of assets and liabilities as a result of showing these at fair value or amortised cost on initial recognition and the subsequent accounting entries required to write the value of these assets and liabilities back up to the actual sum due or payable at the end of its expected life.

Financial Year

The annual period of accounting – i.e. 1 April to 31 March.

Non-current assets

Assets of significant value that yield benefits to the Commissioner for a period of more than one year.

Government Grants

Part of the cost of the service is paid for by central government. General grants can be spent at the discretion of the Commissioner. Specific grants (included within additional grants) are also paid to the Commissioner, but are ring-fenced for spending in specific areas.

Minimum Revenue Provision (MRP)

An amount required by statute to be charged to the movement in reserves. It ensures that authorities put aside funds for the repayment of loans.

Past service cost

The increase in the present value of pension liabilities related to employee service from prior periods arising in the current period as a result of the introduction of, or improvement to, retirement benefits.

Precept

The levying of a council tax rate by one authority which is collected by another. The Commissioner precepts upon the district/unitary councils' collection funds for his council tax income.

Revaluation Reserve

A Balance Sheet reserve which records the accumulated gains on assets held by the Commissioner arising from increases in value, netted off for disposals and certain depreciation adjustments.

Revenue Contributions to Capital Outlay (RCCO)

Amounts paid from revenue funds (charged to the Income and Expenditure Account) to purchase capital assets.

Revenue Expenditure

Expenditure to meet the day to day running costs of services including wages and salaries, purchase of materials and services and capital financing charges. This is shown in the Income and Expenditure account.

Reserves

Accumulated sums which are maintained either to be earmarked for specific liabilities (e.g. pensions, insurance) or generally held to meet unforeseen or emergency expenditure (e.g. General Reserve).
